## POINTS TO REMEMBER WHEN ORDERING STEEL SHELVING

- When possible, obtain a blueprint, layout or a dimensional sketch of areas where shelving is to be installed. Include Length, Width and Height of area to be used. See pages 34 and 72.
- Determine Height of units desired. This will be largely determined by ceiling height, products to be stored and handling facilities.
- Determine Depth and Width of shelves. This will be determined by sizes of boxes and products to be placed on shelves.
- Determine number of shelves per unit, or how big an opening between shelves. This will also be determined by sizes of products to be placed on shelves.
- Determine style of shelving desired:
  - Standard Nut and Bolt shelving. All shelves fasten permanently, to Angle Type posts. Pages 35 to 72.
  - Partially adjustable. Combination Nut and Bolt with economy Clip-Lok clips. Top, bottom and center shelves fasten with nuts and bolts. Intermediate shelves are mounted on economical Clip-Lok clips.
  - Beaded Post Shelving. Features a rounded, beaded front construction. Gives easier, access to stored items and prevents snagging. Page 66.
  - Completely adjustable UNIFLEX Clip-Type shelving. Features common "T" posts. All shelves are clip-type. Pages 3 to 33.
- How much weight will a shelf have to support? Determine any reinforcements needed by load capacity charts. UNIFLEX Charts on Page 30 and Nut and Bolt Charts on Page 68. Specify class of shelves.
- Are units to be open or closed type? Keep in mind starter and additional units with common sides or common backs where units are back to back. Semi-enclosed units are used to back up closed units.
- There are many accessories available, look under component parts for: Dividers, Bin Fronts, Label Holders, Drawers, Base Stripes, Foot Plates, Doors, Clips and Hardware.

## TABLE OF MATERIAL WEIGHTS

To determine the CLASS shelf required, the following material weights are for approximate LBS. per cubic foot of material stored on shelf:

ALUMINUM .....	160	LEATHER .....	65
BRASS, BRONZE .....	540	MERCHANDISE, LIGHT .....	40
CEMENT .....	85	MERCHANDISE, HEAVY .....	75
COPPER .....	540	PAPER, STATIONERY .....	50
CORK .....	15	PAPER, ENAMEL .....	60
FOODSTUFFS, AVERAGE .....	45	RUBBER, AVERAGE .....	135
GLASS, PLATE .....	170	STEEL .....	485
IRON .....	485	WOOD, HARD (DRY) .....	50
LEAD .....	710	WOOD, SOFT (DRY) .....	30

## BFC CUSTOM STEEL FABRICATION

If it's made of metal, BFC can make it or design it for you! We have complete facilities to custom fabricate to your specifications. Modern production machinery— shears, automatic presses, press brakes, drill presses, roll forming equipment, arc, gas and spot welders. Electrostatic spray and dip on automatic paint lines. Assembly, packaging and shipping.

# BOLTLESS UNIFLEX® CLIP SHELVING

Patents allowed and pending

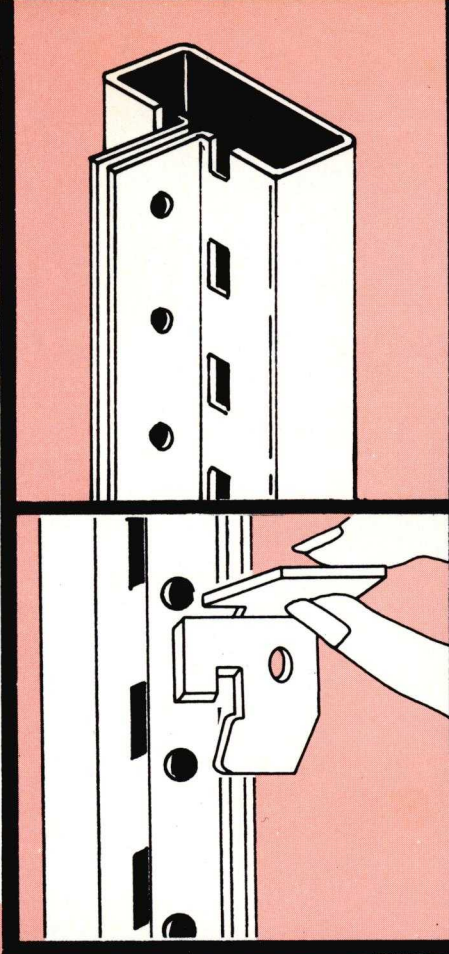

NO BOLTS, NUTS OR TOOLS REQUIRED  
FOR SPEEDY CLIP SHELF ASSEMBLY

THIS IS A CROSS SECTION  
VIEW OF ONE  
ASSEMBLED SHELF

## A COMPLETELY INTEGRATED SHELF SYSTEM

1. UNIFLEX needs no studs or female clips.
2. Each shelf can be moved without disturbing adjoining shelves.  
Hemmed over shelf feature, doubles the load capacity.
4. Rounded posts and shelves avoid sharp edges.
5. Patented ribbing design locks in clip, to make a rigid unit.
6. T-Posts give a clear unobstructed shelf span.
7. Full width and full depth shelves.
8. Uprights (T-Posts) are punched on 2-inch centers.
9. No holes show on front of units!
10. Shelf corners are wedged flush against the uprights.
11. Shelves fit vise tight . . . but readjust instantly.
12. Phosphatised baked on gray enamel finish.

## UNIFLEX FEATURES BOXED "T" POST

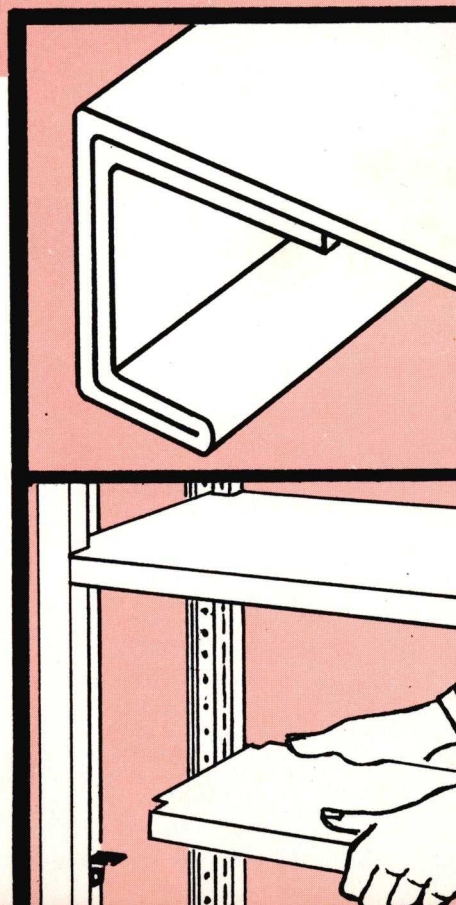

Girder-like construction of the open boxed "T" post provides unmatched vertical and lateral strength. Post is 1 1/4" wide and punched on 2" centers. Available in nine heights (36" to 122").

## INSERT PATENTED UNIFLEX SHELF CLIP

Instantly adjustable through slots in post upright. An engineering triumph! It supports the shelf at its thickest point and holds it in a vise-like grip.

**B-F-C PRODUCTS  
ARE PRE-PAINT  
PHOSPHATISED**

## EXCLUSIVE HEMMED OVER REINFORCED SHELF . . . . .

Reinforced front and back, with a double thick band of metal. Provides maximum strength and eliminates sharp edges. Seven widths (24" to 72"). Seven depths (9" to 36").

## JUST DROP SHELF INTO POSITION ON THE CLIP !!!

That is all there is to it! Simple, clean, sturdy and quick. Rests on double thickness of metal. No special tools needed. As simple as 1 and 2 . . . not 3!

# UNIFLEX® CLIP SHELVING

GIVES DISPLAY-LIKE APPEARANCE TO STORAGE AREAS

**Greater Strength . . . Greater Load Capacity . . . Greater Flexibility**

## NO EXPOSED HOLES OR HARDWARE . . .

Unique design of boxed "T" posts hides holes for clean look of today. No holes or hardware in front.

## FLUSH SHELF FRONTS . . .

Shelves line up flush with front and rear of "T" posts. Shelves and "T" posts are engineered to assure perfect fit.

## NO SHARP EDGES . . .

All edges are turned in and concealed. Posts and shelves are rounded.

## INDIVIDUALLY ADJUSTABLE SHELVES . . .

Each shelf rests on four clips and is INDIVIDUALLY adjustable on 2" centers. Add or remove any shelves in one section, without disturbing shelves of adjoining units.

## "T" POSTS ARE ONLY 1 1/4" WIDE . . .

Each slim look "T" Post covers only 1/2" of the shelf space and is structurally the strongest "T" Post on the market.

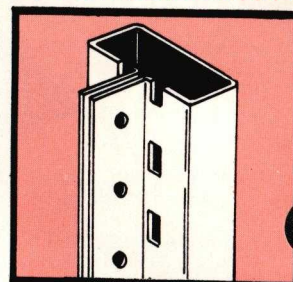

## CLEAR OPENING BETWEEN POSTS . . .

There is a clear unobstructed opening between posts and shelves. Opening between posts is only one inch less than the overall width of the unit.

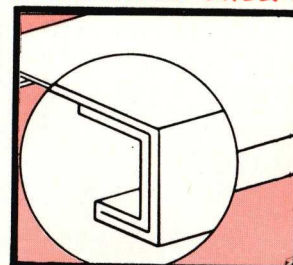

## MODERN CLEAN LINES . . .

The crisp, efficient look of careful planning and superb design. UNIFLEX will increase your stockroom's looks

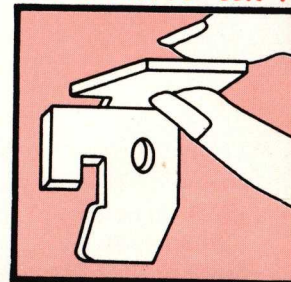

## A PATENTED POST!

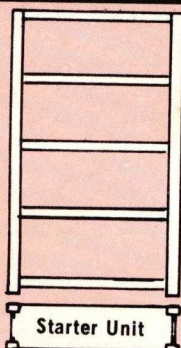

## A PATENTED SHELF!

## A PATENTED CLIP!

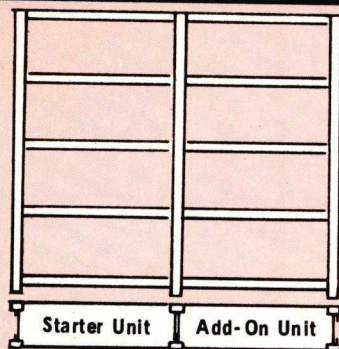

## THE "SHELF-A-MINUTE" UNIFLEX ASSEMBLY PLAN . . . \*

Starter Unit

**1 8 MINUTES**  
4 Posts—5 Shelves

The starting unit of Uniflex is composed of FOUR POSTS plus shelves. Cross braces for ends and back are supplied. Top view shows how shelf corners engage uprights perfectly.

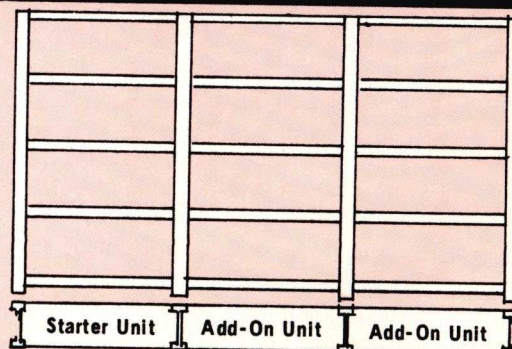

Starter Unit

Add-On Unit

**2 13 MINUTES**  
6 Posts—10 Shelves

Additional units can be added at any time. Each add-on unit is composed of TWO "T" POSTS plus the necessary shelves and braces. The center T-Posts support shelves on both sides and provide added rigidity.

Starter Unit

Add-On Unit

Add-On Unit

**3 18 MINUTES**  
8 Posts—15 Shelves

As many additional units as desired may be added-on. Individual shelves can be moved without disturbing adjoining units. You can "custom-build" UNIFLEX for particular requirements . . . with Ends, Backs, Label Holders, Dividers, and other accessories shown herein.

ALLOW THREE MINUTES FOR FIRST FOUR (4) POSTS THEN ADD "A SHELF-A-MINUTE"

\* Assembly based on time tests with 2 men working together without tools . . .

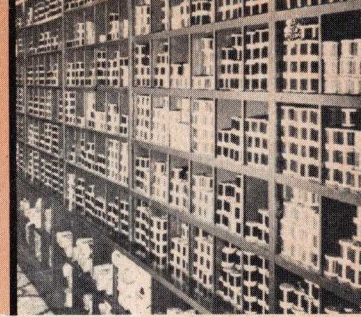

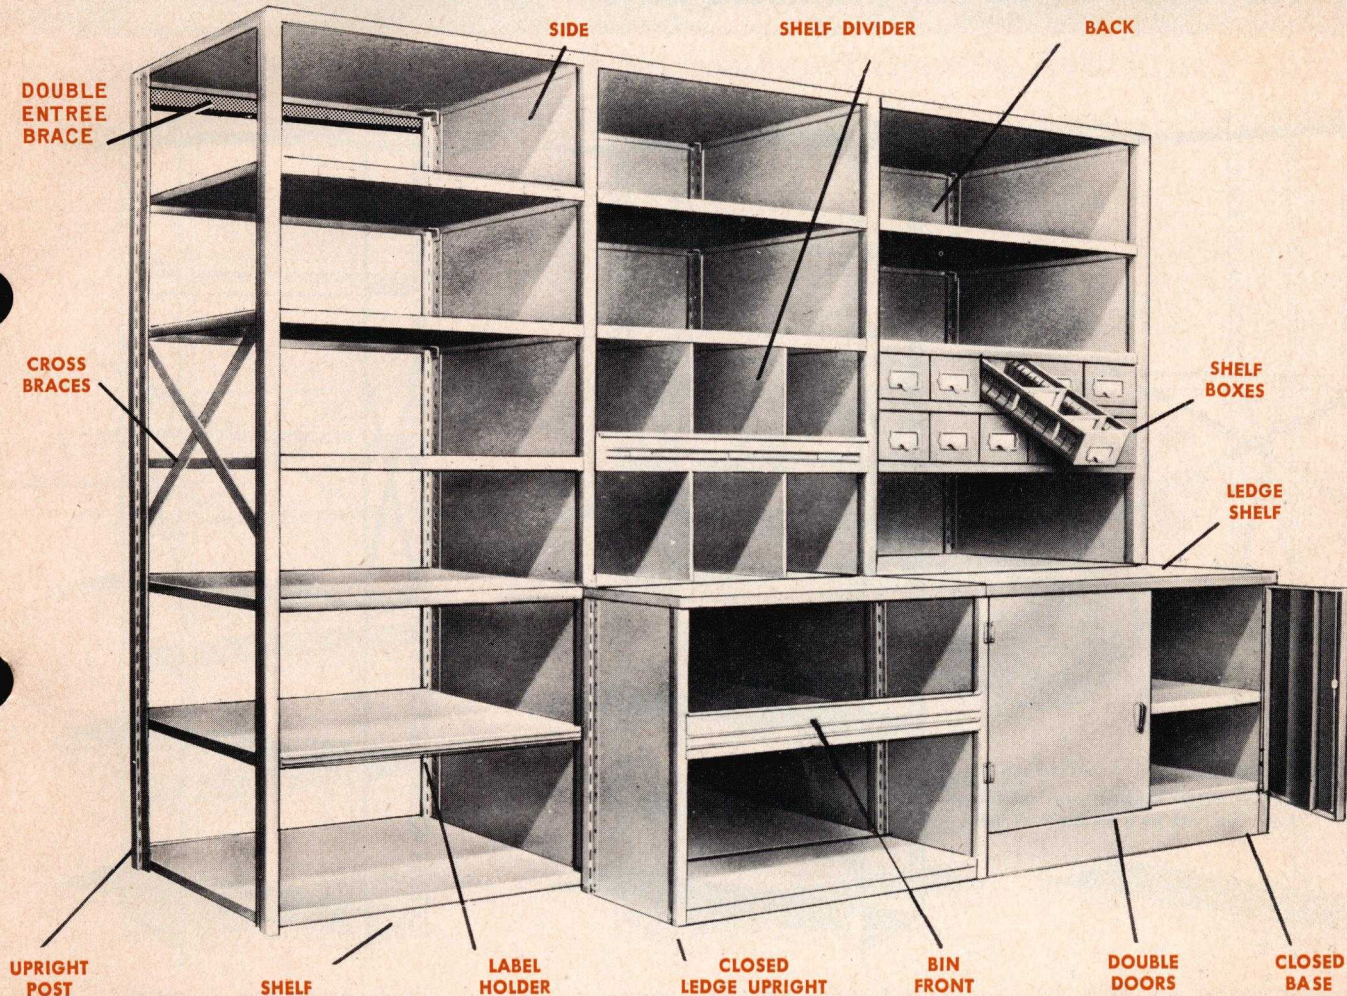

**B-F-C PRODUCTS  
ARE PRE-PAINT  
PHOSPHATISED**

**NO BOLTS  
NO NUTS  
NO TOOLS  
REQUIRED\***

### ***Three Assembled Units of Standard UNIFLEX Shelving Parts***

## **ADJUSTABLE STEEL SHELVING FOR ALL PURPOSES**

Uniflex shelving is constructed of heavy gauge steel to last a lifetime, and provides more strength and load capacity than other types of shelving.\* Shelves are easily and instantly adjusted, without the use of tools, bolts or nuts, to meet your varying needs. Additions or alterations in your storage plan are made quickly and simply.

B-F-C's experienced staff will plan your storage facilities with you, and make recommendations that will help you reduce handling costs and increase safety and efficiency. When buying steel shelving, remember, you can depend on UNIFLEX, the last word in steel shelving.

*Available in Any Combination of the following:*

**NINE HEIGHTS:**

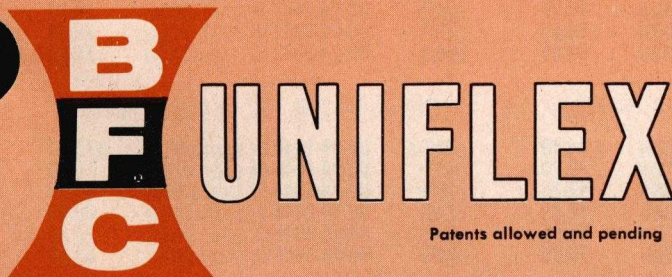

36", 40", 50", 62", 74", 86", 98", 110", 122".

**SEVEN WIDTHS:**

24", 30", 36", 42", 48", 60", 72".

**SEVEN DEPTHS:**

9", 12", 15", 18", 24", 30", 36".

..... Order a Rack End to Finish Each Row of Units . . .*

5 and 6 Foot Wide UNIFLEX Shelves—An innovation from BFC—  
Hold large or lengthy equipment. Cover wide areas, such as sinks,  
radiators, pipes, etc. Save posts. Economize on materials and labor.  
The newest and most practical ideas are coming from BFC! Only

UNIFLEX has the built in shelf-strength to span 6 feet, and still  
effectively support heavyweight loads. If you need W-I-D-E shelves,  
this is the answer! Shelves adjust on 2" centers. Heavy gauge steel.  
\*Gray enamel finish.

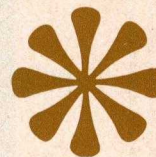

### ADDITIONAL WIDE SHELVES UNIFLEX CLASS 3B

DOUBLE DECK MEZZANINE INSTALLATIONS

## USE YOUR OVERHEAD AIR SPACE!

## ADD - A - TIER MEZZANINE SHELVING

Double your storage space. Increase stockroom efficiency and save money. Take advantage of that so called 'dead space'. Utilize the entire cubic footage of your stockroom or warehouse. This can be done for a fraction of what additional buildings or rentals would cost. Add space where you are!

Total overall height of 14 ft., 6 inches gives 7 foot high clearance on top and 7 foot on bottom. All heights available up to 24 feet overall. B-F-C also converts present standard nut & bolt shelving to double deck units. Contact us for free Engineering Service, without any obligation.

### CRAMPED FOR SPACE? BUILD A NEW INSTALLATION. . .

Why build or rent additional floor areas? Double your storage with the same floor space! Make full use of what you already have. Use your present empty wasted overhead area. Build shelves right up to the ceiling! New installations can be supplied in one-piece upright posts in heights up to 14 ft., 6 inches.

### ADD TO EXISTING SHELVING. . .

Convert your present shelving vertically into double deck or multi-tiered shelving systems. New, revolutionary concept builds on top of existing shelving. Upper tier shelves and mezzanine grating can be placed directly on the lower tier. Construction is designed to rigidly support any load demand without bending, shifting or swaying. No special floor supports or shelf stabilizers are needed.

### BUILD YOUR OWN COMPLETE DOUBLE DECK SHELVING UNITS. . .

Design your own bin arrangements. Pick the units you want. See "To Layout and Order Information" below.

### USE ANY STANDARD UNIT in this B-F-C Catalog!

B-F-C double deck mezzanine shelving increases storage capacity in your present area. Installation heights depend on ceiling heights and storage space needed. **YOU CAN PICK ANY STANDARD SHELVING IN THIS MANUAL.** Mix and match any style parts bin, open or closed type bolt & nut shelving or UNIFLEX boltless shelving units within the same installation. Either 2 or 3 story high systems can be supplied. All heights available up to 25 feet high to suit your specific needs.

### TO LAYOUT AND ORDER DOUBLE DECK INSTALLATIONS. . .

Sketch out shelving floor plan for each floor level. Design your own bin arrangements or pick standard B-F-C units. Note aiseways where grating is required. Specify where railings are needed. Mark entrance and exit stair areas. Generally, stair lengths are equal to mezzanine heights. B-F-C Engineering Department is at your disposal. Send us your sketch or blueprint for engineering guidance and quotation, without any obligation.

If your existing shelving is not B-F-C shelving, tell us the name of the manufacturer and your shelving sizes. Send us your present floor plan. For suggestions, refer to page 34. B-F-C does the rest!

## BOXED "T" UPRIGHT POSTS

Patented UNIFLEX upright posts are formed into boxed "T" shape. 1 1/4" wide on face x 1 1/2" deep over-all. Flange of tee is 1 1/4" wide on face, formed back 3/8", then 3/8" toward the center and out 1" on the stem. Flange and stem slotted on 2" centers for shelf clips and pierced for attachment of backs, sides, sway braces and bases. Top is identified by 1/2 of slot into the edge of upright.

283-1042	2.35	42	1.9
283-1048	2.65	48	2.2

## BACK PACKAGE STOPS

Used when a back is not used but a stop is needed at the back of the shelf. Shelves must be drilled in field.

283-2024 *	\$1.75	24	1.3
283-2030 *	2.00	30	1.7
283-2036	2.20	36	1.9
283-2042	2.45	42	2.3
283-2048	2.70	48	2.6

## HOW TO PLAN A SHELVING LAYOUT

When making a shelving layout there are many factors to be considered, such as amount of floor space available, types and amounts of materials to be stored, floor load capacity, light source, aisle space needed, locations of different materials, etc.

### GENERAL LAYOUT

The locations of aisles, doors and windows are important. Windows should light the cross aisles and doors should face the main aisles. Take into consideration material handling needs for aisle widths, such as trucks, carts, skids, conveyers, etc.

### SHELVING SIZES & LOAD CAPACITIES:

Choose the width, height and depth best suited to the space available and the type of goods stored. Bulky or heavy articles should be stored on the lower shelves.

For very heavy goods, 18" deep shelving is better than 24". The heavier the material the narrower the units should be. Deeper shelves may be used for lighter goods. For special load requirements, check the weight of materials loaded on each shelf to determine Class 1, 1-A, 2 or 3.

### CLOSED SIDES AND BACKS:

It should be noted whether or not closed backs and bases are desired. Also, if closed sides are wanted throughout, or only at exposed ends and perhaps at internal room corners. Common backs should be used on double faced closed units. Only one side is used between any two connecting sections of a rack.

### ACCESSORIES REQUIRED:

List and draw in any accessories required, such as Bin Fronts, Dividers, Label Holders, Doors, Sides, Package Stops, Reinforcement Angles, etc.

### FLOOR PLAN DRAWING:

Where possible make drawings to a scale convenient to size of room. One-quarter inch to the foot is most popular scale. Keep building columns out of aisles wherever possible. All Aisles should be laid out to permit easy access to and from shelving units. Main aisles should be 42" minimum width, sub aisles 30" minimum.

For convenience, center racks of shelving should not exceed 18' long. Run aisles at right angles to windows for maximum light. Leave minimum of 18" from top of shelving to sprinkler heads, per Underwriter's requirements. If possible, locate the racks so the sprinkler heads are above the center of aisles. The racks should be located so that the lighting fixtures occur in the aisles if possible.

To eliminate confusion in ordering, shipping and erecting . . . use as few different sizes of units as possible. When columns or walls are not conveniently spaced to permit the use of the size selected throughout, fill in with a section of the size required. However, do not attempt to fit the spaces too closely.

Be sure the Floor Plan is fully dimensioned, especially where it affects shelving. Show heights to ceiling, beams, pipes, light troughs, etc. if these relate to shelving. Determine clearance for baseboards, windows, doors, trim, columns.

### BFC ENGINEERING SERVICE

For large or involved shelving projects, it may be necessary to receive more professional help. B-F-C Engineering Services are at your disposal. Send us as much information as you can or have one of our Sales Engineers call to study your requirements. Plans and estimates will be submitted for your approval.

STRENGTH**

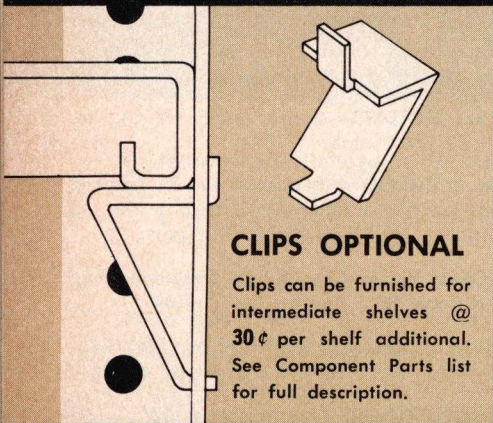

# Heavy Duty Industrial OPEN TYPE STEEL SHELVING

*Adjustable • Durable • Fireproof  
With Sturdy Triple Bent Channel*

**IDEAL ECONOMICAL STORAGE UNITS FOR WAREHOUSE,  
FACTORY, OFFICE, STOCKROOM OR HOME.**

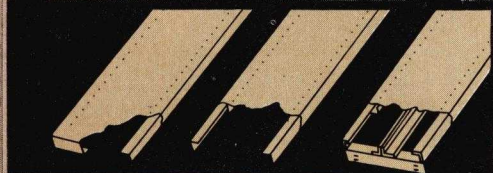

Posts are punched on 1" centers, for fully adjustable shelves. Shelves are punched for dividers on 1" centers.

Label Holders and Base Strips are optional. Additional units are added to obtain any desired length or depth. Gray baked-on enamel finish.

## CLIPS OPTIONAL

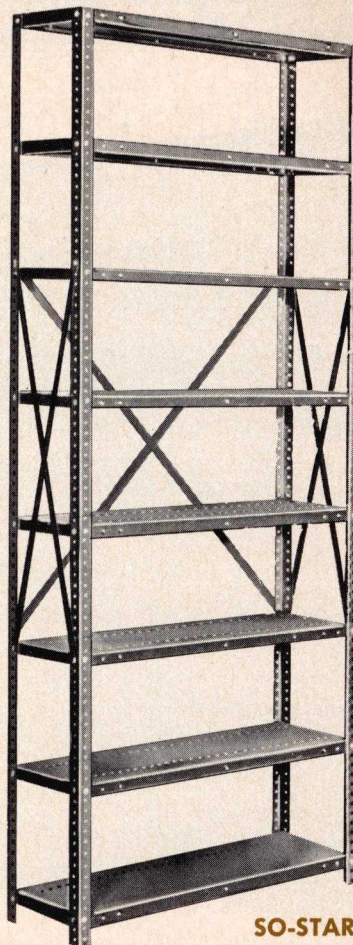

Clips can be furnished for intermediate shelves @ 30¢ per shelf additional. See Component Parts list for full description.

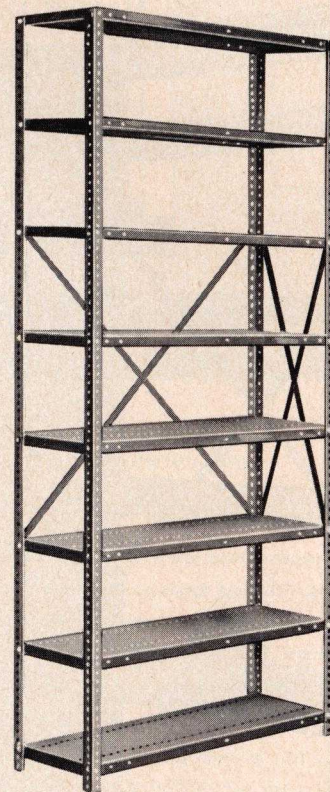

## SHELF REINFORCEMENTS

Class 1A Shelf—Add 1 Reinforcing Angle  
Class 2 Shelf—Add 2 Reinforcing Angles  
Class 3 Shelf—Add 4 Reinforcing Angles  
and 2 Shelf Supports

**36** (See load carrying cap. chart—Page 68)

**SO-STARTING UNIT**

**AO-ADDITIONAL UNIT**

Each section is a complete self-contained unit, consisting of:

### SO-STARTING UNIT

Four Posts  
Two pr. Side Braces  
One pr. Back Braces  
Quantity of Shelves  
Necessary Hardware

### AO-ADDITIONAL UNIT

Four Posts  
One pr. Side Braces  
One pr. Back Braces  
Quantity of Shelves  
Necessary Hardware

When placing units back to back, omit back braces on ½ of the units, thus permitting the use of a common back brace.

**40 SHELVES  
HAVE  
TRIPLE BENT  
CHANNELS  
FOR ADDED  
STRENGTH**

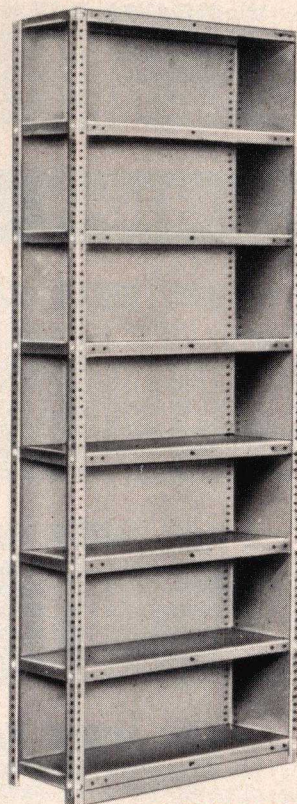

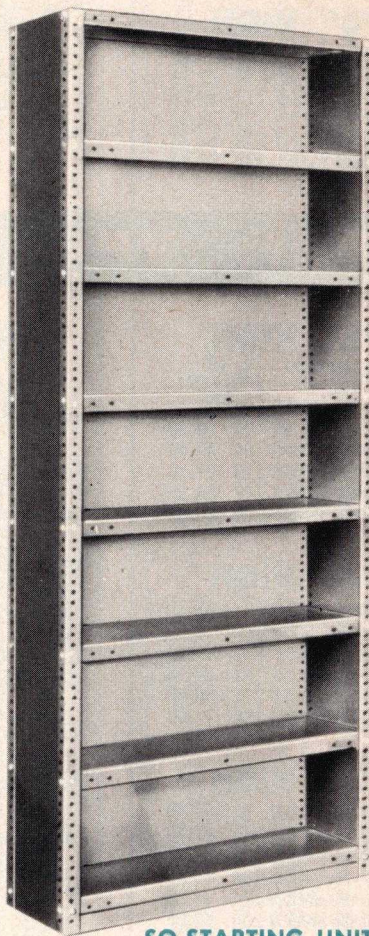

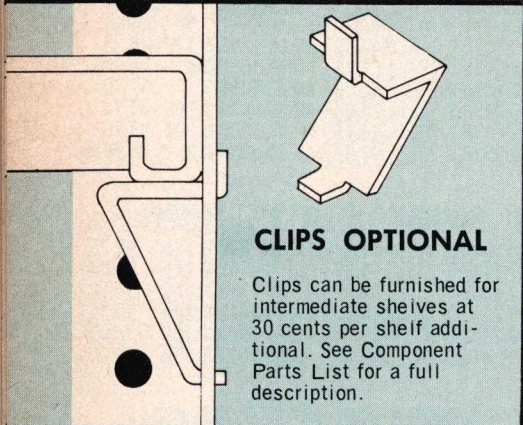

# Heavy Duty Industrial CLOSED TYPE STEEL SHELVING

*Adjustable • Durable • Fireproof  
With Sturdy Triple Bent Channel*

**PROTECTS GOODS FROM DIRT, DUST AND FROM FALLING OFF SHELVES. ENCLOSED AT SIDES, BACK AND BASE.**

Posts are punched on 1" centers, for fully adjustable shelves. Shelves are punched for dividers on 1" centers.

Label Holders are optional. Additional units are added to obtain any desired length or depth. Gray baked-on enamel finish.

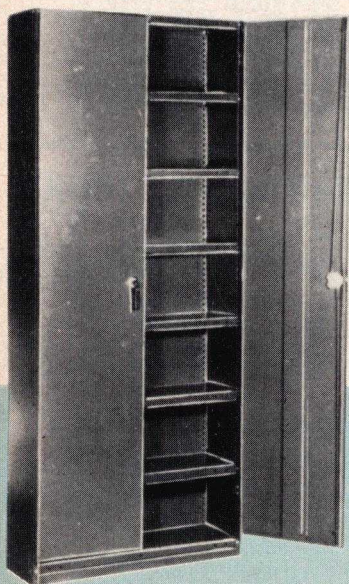

Each section is a complete self-contained unit, consisting of:

**SC—STARTING UNIT**

Four Posts  
Two Side Panels  
One Back Panel  
Quantity of Shelves  
Necessary Hardware  
Base Strip

**AC—ADDITIONAL UNIT**

Four Posts  
One Side Panel  
One Back Panel  
Quantity of Shelves  
Necessary Hardware  
Base Strip

**DOORS FOR  
CLOSED DOOR SHELVING**

By adding doors to a closed type shelving unit, you create a completely enclosed storage cabinet. Doors give greater security with three-way locking mechanism. BFC Gray baked enamel finish.

No. D-3672 Pr. 36" W. x 72" H... \$59.90  
No. D-3684 Pr. 36" W. x 84" H... 65.75

When placing units back to back, omit back panel on 1/2 of the units, thus permitting the use of a common back panel. For convenience use semi-enclosed units on Pages 44 & 45.

# SEMI-ENCLOSED STEEL SHELVING

*These Units Have Open Backs and Closed Sides*

Heavy gauge reinforced construction with neat appearance. Gray baked enamel finish.

SSE STARTING UNIT

ASE ADDITIONAL UNIT

## SSE-STARTING UNIT

Consists of:

- Four Posts
- Two sides
- Quantity of Shelves
- One Base
- Necessary Hardware

## ASE-ADDITIONAL UNIT

Consists of:

- Four Posts
- One Side
- Quantity of Shelves
- One Base
- Necessary Hardware

Semi-Enclosed Units are used chiefly to back up closed shelving units, fastened together.

STARTING UNIT CLOSED	ADDITIONAL UNIT CLOSED	ADDITIONAL UNIT CLOSED
STARTING UNIT SEMI-ENCLOSED	ADDITIONAL UNIT SEMI-ENCLOSED	ADDITIONAL UNIT SEMI-ENCLOSED

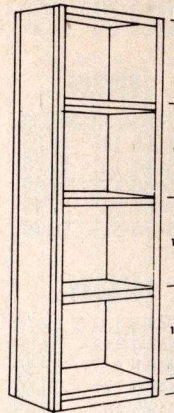

When not backing up closed shelving units, these units will need additional bracing. Add cost of one pr. back sway brace or eight "L" brackets per unit. See component parts list.

To figure prices and weights of additional shelves, See Page 37 or 69.

#### V-TYPE SNAPS

are supplied to fasten dividers to shelves. Bolts & Nuts optional.

#### SHELF DIVIDERS

Front and rear edges  
folded over for safety.  
12 Heights: 6" to 24"  
7 Depths: 9" to 36"

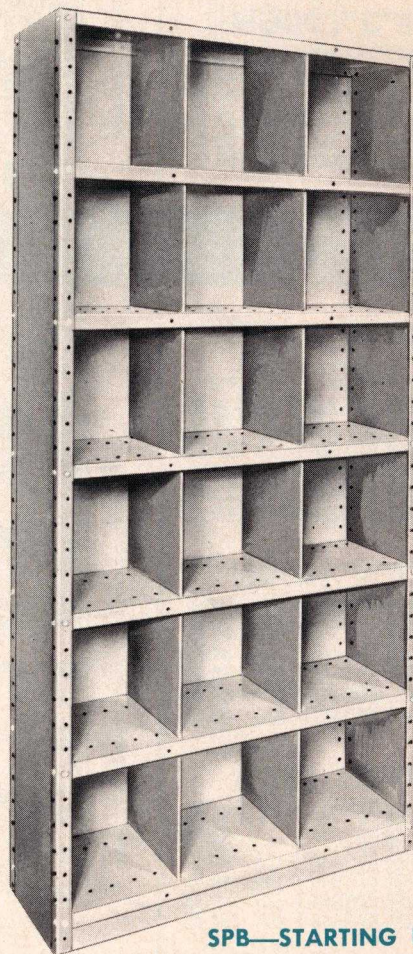

## Heavy Duty Industrial 6' 3" HIGH x 36" WIDE DIVIDER PARTS BINS

*for Items Requiring Separate Compartments*

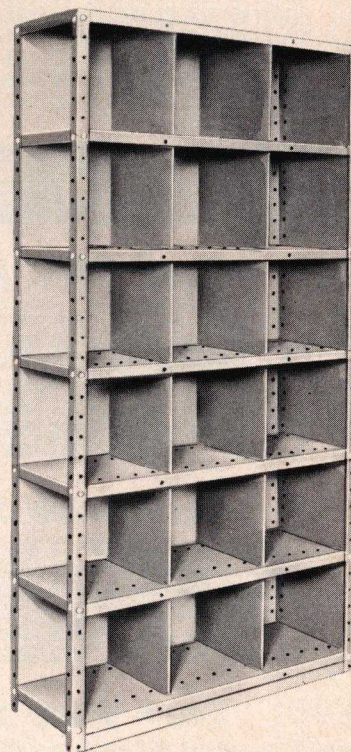

**IDEAL FOR STORING AUTOMOTIVE PARTS, HARDWARE, FITTINGS, TOOLS, ELECTRICAL SUPPLIES, SMALL MERCHANDISE OR LITERATURE.**

Infinite arrangements are possible. Illustrations shown are typical. Posts are punched on 1" centers, for fully adjustable shelves. Shelves are punched for dividers on 1" centers. Shipped knocked down.

If units are desired set up add 20% to the knocked down price. Label holders and Bin Fronts are optional. Additional units may be added side by side to obtain any desired length. Gray baked enamel finish.

**SPB—STARTING UNIT**

**APB—ADDITIONAL UNIT**

Each section is a complete self-contained unit, consisting of:

#### SPB—STARTING UNIT

Four Posts, Two Side Panels, One Back Panel, Quantity of Shelves and Dividers, Necessary Hardware and Base Strip.

#### APB—ADDITIONAL UNIT

Four Posts, One Side Panel, One Back Panel, Quantity of Shelves and Dividers, Necessary Hardware and Base Strip.

ILLUSTRATED ABOVE: 18 bins—12" wide x 12" high

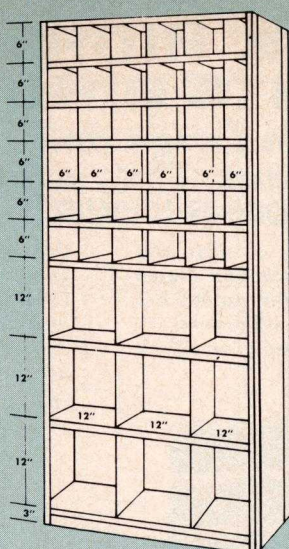

STARTING NO.	DEPTH	WT.	PRICE	ADD-ON NO.	DEPTH	WT.	PRICE
SPB-50112	12"	140	\$62.00	APB-50112	12"	133	\$58.50
SPB-50118	18"	175	78.70	APB-50118	18"	163	74.15
SPB-50124	24"	215	96.45	APB-50124	24"	200	90.50

When placing units side by side eliminate one side to obtain ADD-ON UNIT. Use the pre APB before the number, subtract cost of one side from the SPB price.

When placing units back to back, omit back panel on 1/2 of the units, thus permitting the use of a common back panel. Subtract cost of one back panel.

## OPEN SHELF LEDGE UNITS

Adaptable, space saving heavy duty ledge combinations—used where two different shelf depths are required in one unit. A smooth one piece counter high (39") work area is included for assembling, packaging, and distributing. Unit provides place to store larger, bulkier items in base portion. The same unit provides a place for small parts on the narrower upper shelves. Open type units use sway braces for extra rigidity. Dividers, Bin Fronts and Shelf Drawers may be added to any of these units, at any time. Use component parts list. Gray baked enamel finish.

Unit contains: 2 posts 7'3", 2 posts 48", 2 posts 39", 1 pr. back sway braces 36", 2 pr. lower side braces, 2 pr. upper side braces, quantity of upper shelves, quantity of lower shelves, 1 pr. reinforcing angles.

7' 3" HIGH x 36" WIDE

## CLOSED SHELF LEDGE UNITS

These units are similar to open shelf units above—except, with closed sides, back panels and base plates. Has same counter high (39") work area for assembling, packaging and distribution of materials. The one piece ledge shelf is sturdily reinforced at the sides. Two different shelf depths in same unit provides a place to store larger bulkier items in base portion. The same unit provides a place for small parts on the narrower upper shelves. Dividers, Bin Fronts and Shelf Drawers can be added at any time. See component parts list.

Gray baked enamel finish.

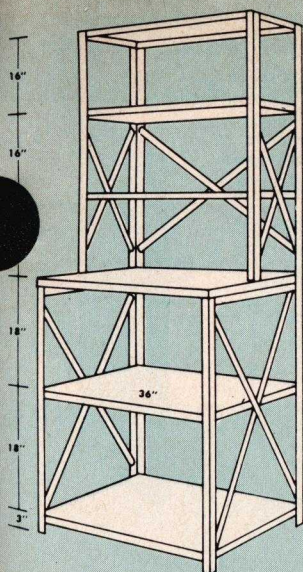

Unit contains: 2 posts 7'3", 2 posts 48", 2 posts 39", 1 back panel 7'3" x 36", 2 upper side panels, 2 lower side panels, 1 base plate, quantity of upper shelves, quantity of lower shelves, 1 pr. reinforcing angles, plus accessories.

# COMPONENT PARTS—STEEL SHELVES

B-F-C Shelves have all four sides flanged downward at right angles to the load surface. This forms a right angled triple bent channel as follows: 1¼" down along front or back edge, ⅝" along bottom return and ½" on upward return. The top surface of shelves are punched on 1" centers for adjustment of dividers.

STANDARD WIDTHS: 24", 30", 36", 42", 48".

STANDARD DEPTHS: 9", 12", 15", 18", 24", 30", 36".

B-F-C Shelves are furnished in FIVE CLASSES to meet every load requirement. Construction features illustrated with maximum recommended loads, for user's needs, are noted below.

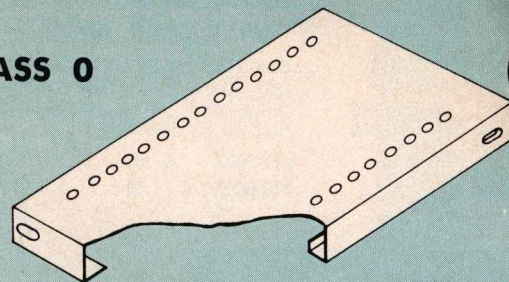

**ALL COMPLETE UNITS IN THIS SECTION USE CLASS 1 SHELVES. ALL SHELVES ARE PERFORATED FOR DIVIDERS ON 1-INCH CENTERS.**

## LOAD CARRYING CAPACITIES

Capacities shown are for evenly distributed loads. NOT FOR IMPACT LOADS.

### CLASS 0

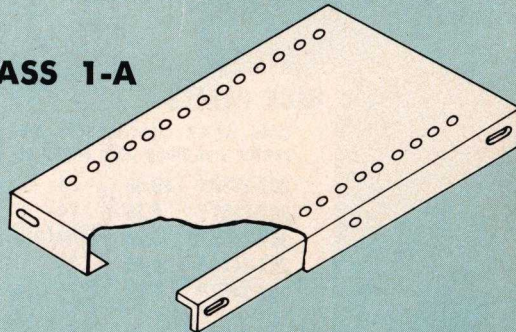

Without reinforcement for light loads.

### CLASS 1

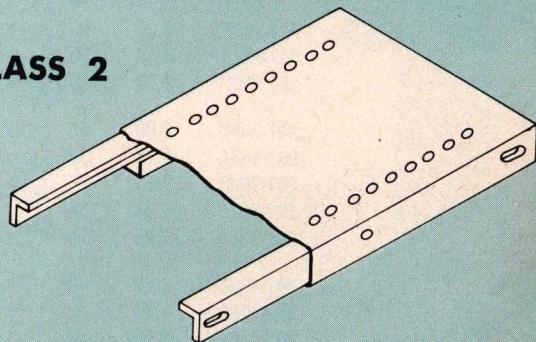

Without reinforcement for normal loads.

### CLASS 1-A

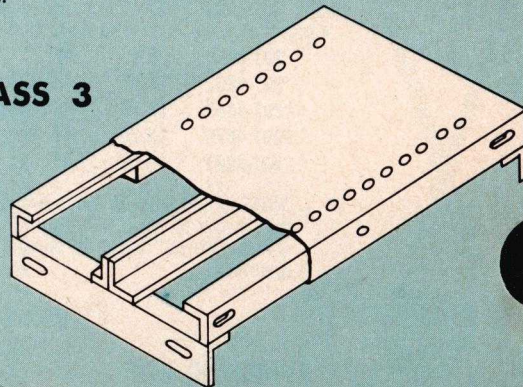

With 1" x 1" x ⅛" angle in front flange for semi-heavy loads.

### CLASS 2

With 1" x 1" x ⅛" angles in front and rear flanges for heavy loads.

### CLASS 3

For shelves 18" deep or over. With 1" x 1" x ⅛" angle in front and rear flanges, a pair of 1" x 1" x ⅛" angles in center and a pair of side shelf supports.. For extra heavy loads.

219-3048	1.75	48	4.7

## LABEL HOLDERS

Label holders are 1" High, punched with 3 holes and furnished with 3 V-Snaps for attaching to shelf.

259-0024	\$ .50	24	x	1	.02
259-0030	.55	30	x	1	.02
259-0036	.60	36	x	1	.03
259-0042	.65	42	x	1	.03
259-0048	.70	48	x	1	.04

## COUNTER FRONT

Made of heavy gauge steel. No holes will appear when Cover Plates are used.

207-3640	\$7.75	36	x	39	11.3
----------	--------	----	---	----	------

## COUNTER TOPS

Fixture-like appearance. Extends 1" beyond Front and Rear. Made of heavy gauge steel. No divider punching on counter tops.

224-3626	\$16.00	36	x	26	22
----------	---------	----	---	----	----

## CENTER PACKAGE STOPS

Used as a backstop for packages especially when feeding from both sides. Shelves must be drilled in field.

283-1024 *	\$1.65	24		1	
283-1030 *	1.90	30		1.2	
283-1036	2.10	36		1.5	
283-1042	2.35	42		1.9	
283-1048	2.65	48		2.2	

## BACK PACKAGE STOPS

Used when a back is not used but a stop is needed at the back of the shelf. Shelves must be drilled in field.

283-2024 *	\$1.75	24		1.3	
283-2030 *	2.00	30		1.7	
283-2036	2.20	36		1.9	
283-2042	2.45	42		2.3	
283-2048	2.70	48		2.6	

## PARTIAL DIVIDERS OR SEPARATORS

Snap onto shelf to form individual compartments for tools, small dies, instruments or small boxed merchandise.

255-1202 *	\$ .90	12	x	2	.5
255-1802 *	1.15	18	x	2	.7

## COMPARTMENT BOXES (DRAWERS)

Two dividers are furnished with each drawer. All boxes fit on shelves spaced 6" apart. Boxes are slotted on 1" centers for dividers. Fold over handle w/card holder. Stop at rear of box prevents accidental removal.

257-0084	.30	8	x	4 3/8	.46
257-0114	.38	10 7/8	x	4 3/8	.59

## BOX GUIDES (FLUSH BARS)

Used in the sides of shelf openings to guide the drawers. One Pair of guides is required per shelf opening.

243-0012	\$1.05 pr	12		2
243-0015	1.30 pr.	15		3
243-0018	1.65 pr.	18		4
243-0024	2.00 pr.	24		5

## SLIDING DIVIDERS

Snap into position and slide it anywhere on the shelf. Easily installed or removed. Corners on dividers are rounded. Ideal for open shelf filing.

355-1204	\$1.10	12	x	4	2
355-1206	1.45	12	x	6	2.2
355-1506 *	1.60	15	x	6	2.5
355-1806 *	1.75	18	x	6	2.9

## KLIP-LOK SHELF CLIPS

Klip-Lok Clips are used instead of bolts and nuts with all intermediate shelves. Four clips are needed for each shelf. Install Clip in front and rear of Posts. Recommended for installations not requiring Dividers, Shelf Boxes, Bin Fronts or Reinforcing Angles. Each Clip is precision made for uniformity and Cadmium plated. Shelves may be adjusted easier—extra shelves are added quicker. Install Clip in front and rear of each Post.

281-0001	\$ .08			.1
----------	--------	--	--	----

## V-TYPE SNAP CLIPS

V-Type snaps are used to fasten dividers to shelves. Bolts and nuts are optional. Also used to snap-in label holders.

281-0003	\$ .03			.01

597-0128 *	14.20	per gallon
597-1600	4.50	per pint Spray Bomb.

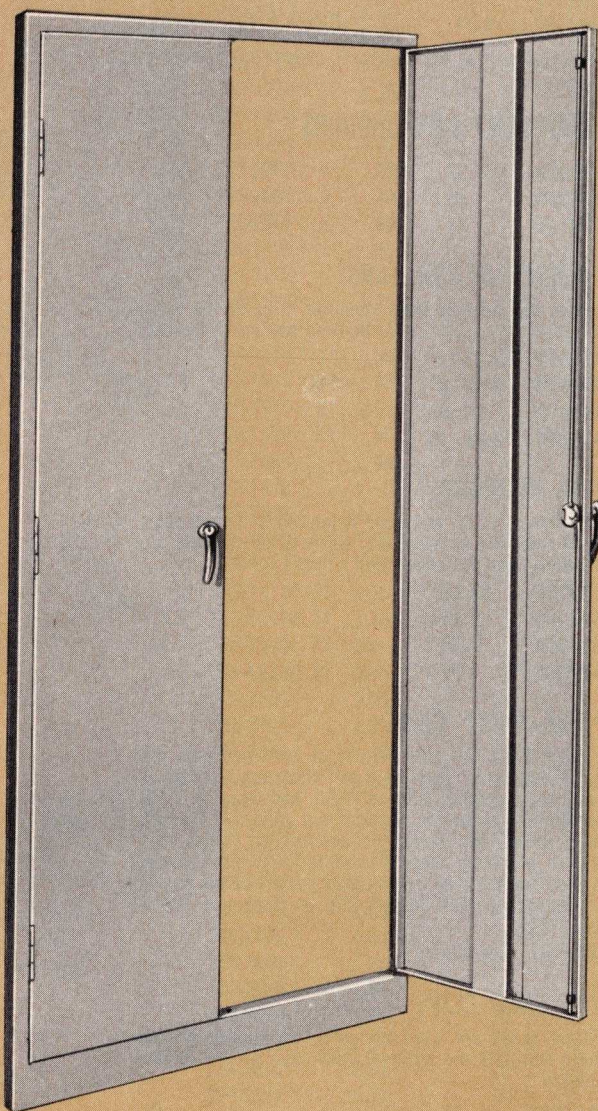

## HINGED DOORS

*Give Added Protection  
and A Neater Appearance*

Hinged doors may be added to Angle Type shelving, Ledge or counter units. Protects contents from dust, dirt and unauthorized removal.

Door assemblies consist of two swinging doors attached to a rugged heavy duty frame. Frame can be quickly bolted to posts of angle type shelving section in corresponding size.

Doors are full length pan reinforced. They have a three point locking device and a chrome handle with built-in key lock.

ITEM NUMBER	PRICE EACH	SIZE IN INCHES WIDE x HIGH	APPROX. SHPG. WT.

228-3684	65.75	36 x 84	72

## HOW TO ORDER ANGLE SHELVING

Standard Angle Type Shelving units will meet most storage requirements.

Ordering of B-F-C Angle Type Shelving has now been simplified. The most popular styles, heights, widths and depths have been set up as complete units of shelving. Order the units desired by number and all parts and hardware needed will be shipped with each unit. This will eliminate the time consuming chore of making breakdowns.

When ordering units for installation in a continuous row, specify one Starter Unit for the beginning of the row, plus as many Additional Units needed to complete the run. For example: For a row of six units, order one Starter Unit and five Additional Units.

### WHAT TO SPECIFY WHEN YOU ORDER:

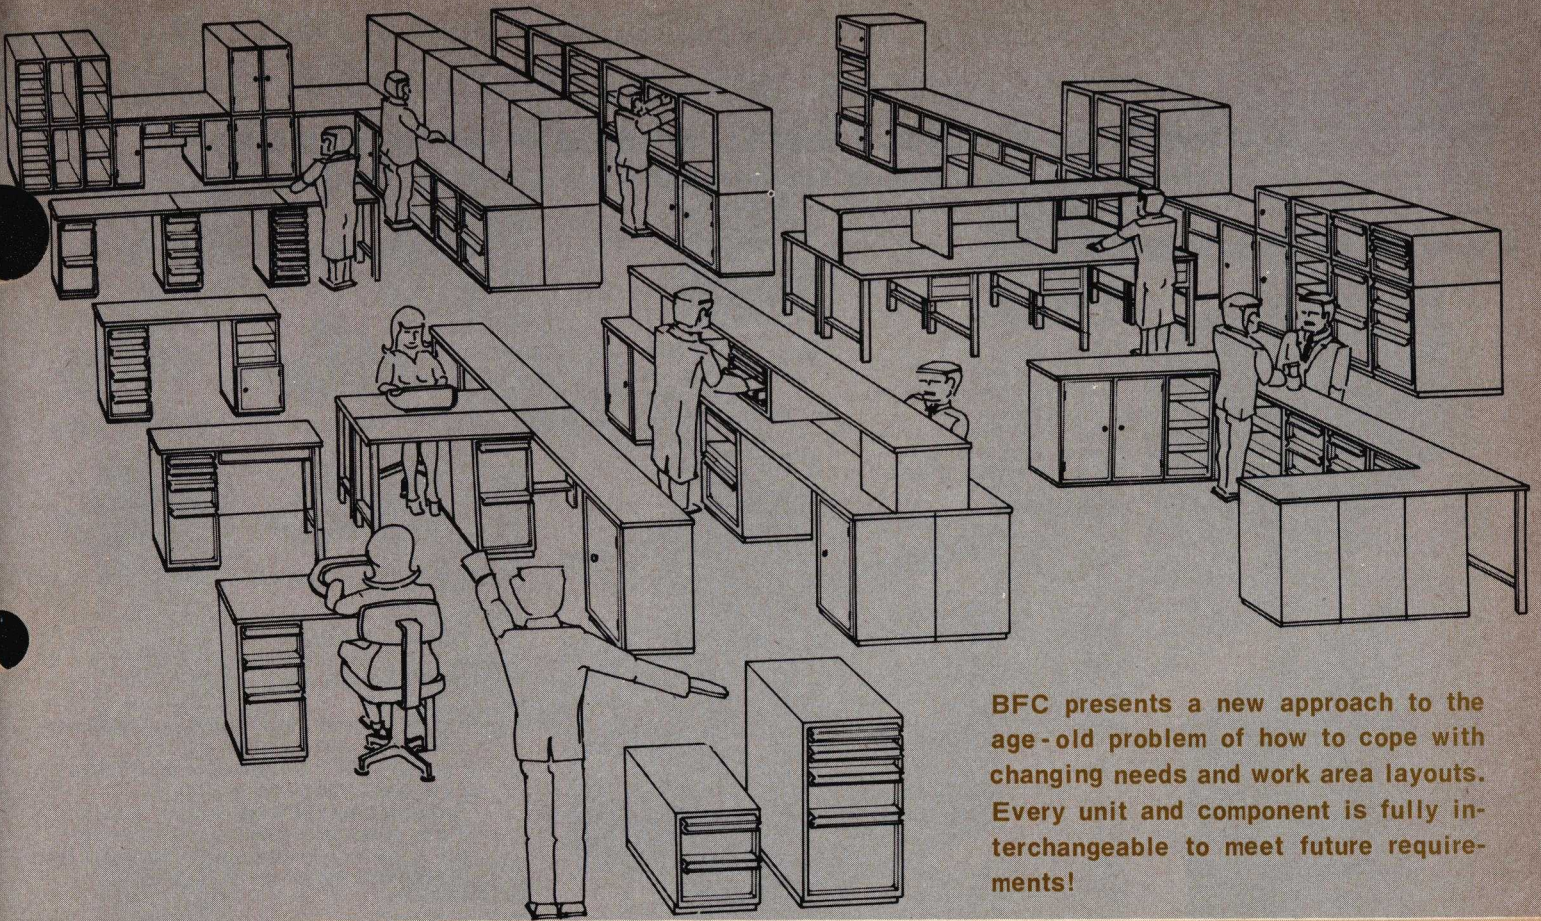

1. Determine Height, Depth and Width of units desired.
2. Determine number of shelves per unit or how big an opening between shelves.
3. Find the size and style that you want in this catalog.
4. Specify quantity and Starting Unit number.
5. Specify quantity and Additional Unit number.
6. Determine any reinforcements needed by load capacity chart. Order necessary reinforcement angles for Class 1-A, 2 or 3 shelving.
7. Order any additional shelves needed from Component Parts section.
8. Order accessory parts from component parts list (label holders, bin fronts, doors, clips, bin dividers, bases, sides, etc.)
9. Send floor plan sketch, showing arrangement of shelving units in single or double (back-to-back) rows. Show all aisle locations and widths. Use Semi-Enclosed shelving to back-up Closed Shelving units.
10. To determine overall length of a row, add  $\frac{3}{8}$ " to Starting Unit and  $\frac{1}{8}$ " for each Additional Unit.

# EXPANDA-FLEX modular benching provides

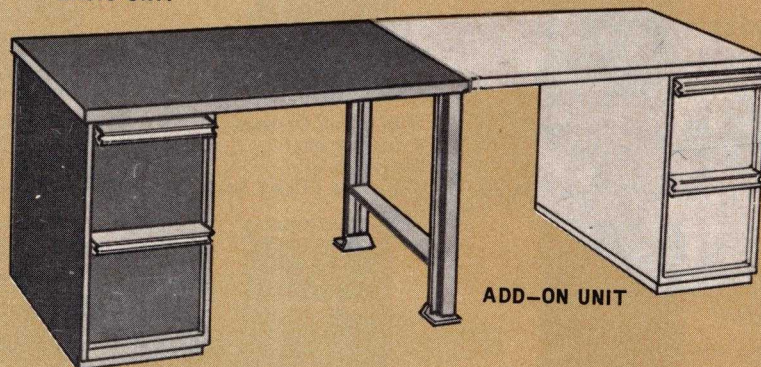

Patents applied for.

SELECT ONE OF THESE POPULAR WORK STATIONS,  
OR DESIGN UNITS TO MEET YOUR OWN REQUIREMENTS!

BASIC UNIT

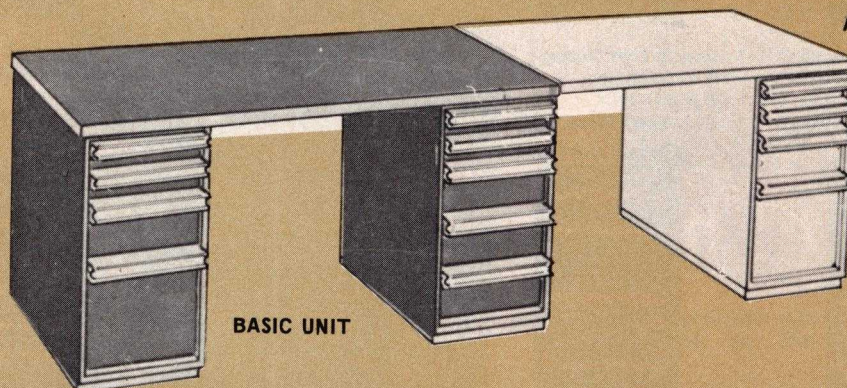

## EXPANDA-FLEX BASIC WORK BENCH

Plenty of space for small tools, parts, gauges, test equipment and storage. Flexible drawer arrangements to suit your needs now, & in the future. Choose a top, bench leg and cabinet with base to form a basic work unit. Expandable with additional tops, legs or EXPANDA-FLEX Cabinet Units. Add-on Bench consists of one No. 602-1200 Cabinet, one top & one base.

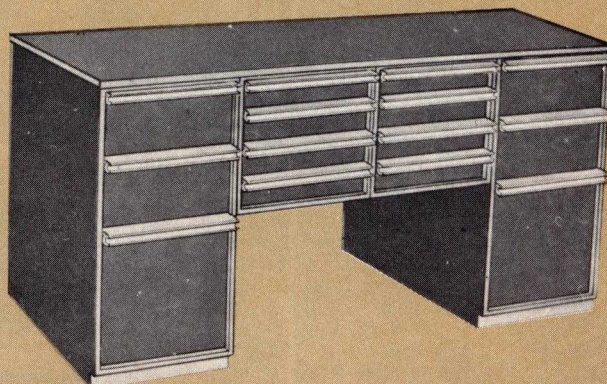

## EXPANDA-FLEX WORK STATION

Provides storage areas with drawer combinations to meet individual requirements. Tops available in choice of surfaces; choice of lengths. For additional work stations, add one top and one EXPANDA-FLEX Cabinet No. 602-1102.

## EXPANDA-FLEX INSPECTION STATION

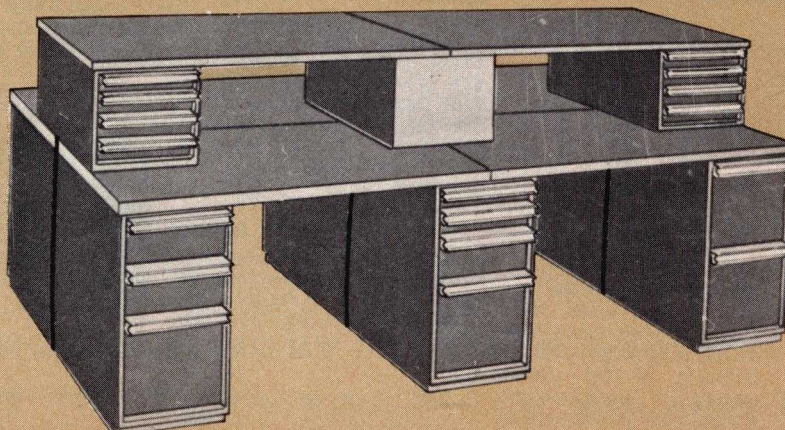

Combine MARK I & MARK II units to provide needed drawer space for small gauges, measuring instruments or parts. Large drawers for files, larger equipment. Half-drawers for tools. Add-on unit includes two No. 601-1004 MARK I Cabinets and one No. 602-1120 MARK II with base and a top.

Design your plant, service shop, laboratory, store or office using the unlimited flexibility of BFC's new, exclusive EXPANDA-FLEX Modular Component System. When it comes to versatility, BFC has it! All components are completely interchangeable to meet changing requirements, protect your investment!

## EXPANDA-FLEX "MINI-LAB"

Top a twin line of EXPANDA-FLEX Work Areas with a series of MARK I Cabinets and a second top to provide versatility of storage and work areas. Ideal for research, testing labs and special work stations. MARK I's alternate to serve each side of dual bench. Add-on "Mini-Lab" consists of four bench tops, 2 shelf tops, 4 MARK II No. 602-1112 & No. 602-1200 (2 each), 2 MARK I Cabinets No. 601-1004 and bases.

# unlimited variations for work areas!

CONFERENCE TABLE

Designed to increase the "work space" needs. Four people work where only 2 people worked before. Overall size of unit with Pressed Wood tops is 14 ft. wide by 24 inch depth tops, with center "L" return, 6 ft. wide by 48 inch depth top, 30 inch height. Plastic tops are 30 inches deep. Gray finish.

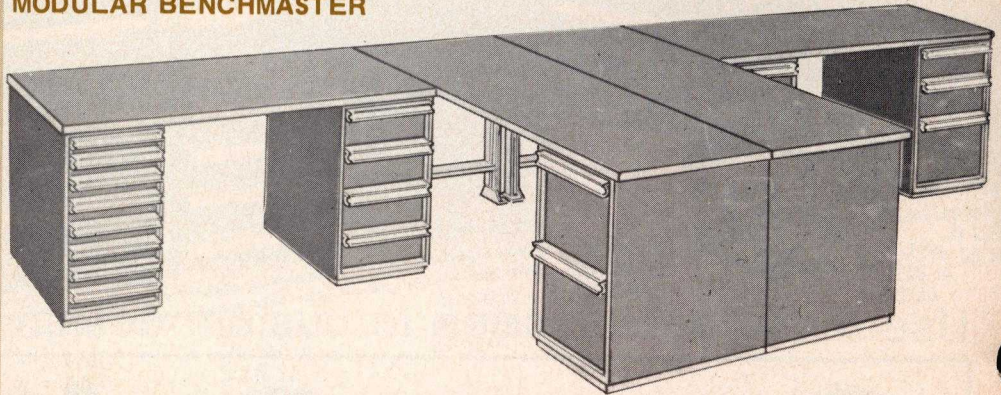

### WITH PRESSED WOOD TOP

No. 60-9000	\$1951.00	264 lb.
-------------	-----------	---------

### WITH PLASTIC LAMINATED TOP

No. 60-9001	\$2090.00	224 lb.
-------------	-----------	---------

### MODULAR BENCHMASTER

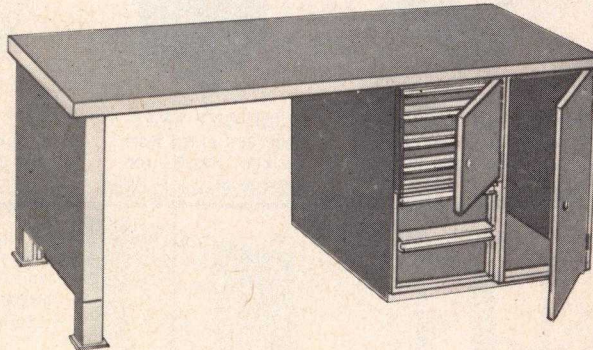

Increase work efficiency. Designed to meet every work area need. Plenty of drawers, storage compartment and work top space. 30 inches high. Gray finish.

### WITH PRESSED WOOD TOP

60-9002	24x60	\$ 389.10	250 lb.
60-9003	24x72	\$ 397.45	262 lb.

### WITH PLASTIC LAMINATED TOP

60-9004	30x60	\$ 404.00	242 lb.
60-9005	30x72	\$ 418.00	250 lb.

SPACE SAVER DESK

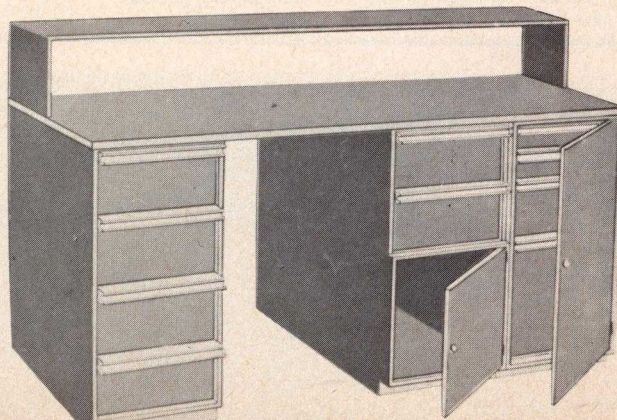

Practical, all-purpose bench assembly. Provides good working surface, plus a large drawer storage area, security doors. Riser 10½ in deep, 12 in high. Overall size of bench 30 in H; 24 in D; 60 or 72 inches W. Gray finish.

### WITH PRESSED WOOD TOP

60-9006	24x60	\$ 552.15	337 lb.
60-9007	24x72	\$ 561.85	352 lb.

### WITH PLASTIC LAMINATED TOP

60-9008	30x60	\$ 567.05	329 lb.
60-9009	30x72	\$ 582.40	340 lb.

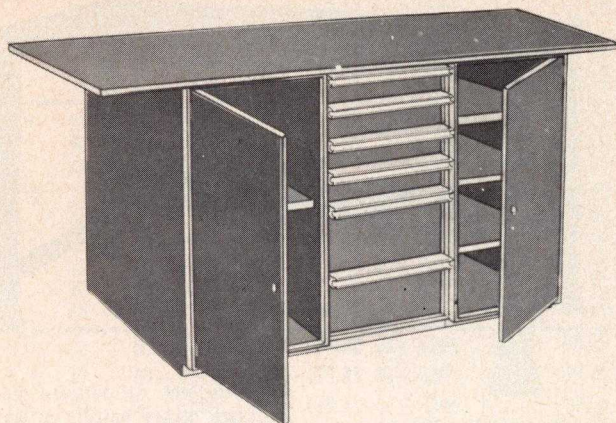

R & D WORK STATION

# provide unlimited variations for work areas!

Design your units to suit your work needs!

## BENCH CREDENZA

Custom styled three unit model with overhanging top. Wide range of drawers, storage compartments. All parts interchange as your needs change later! 30 inches high. Gray finish.

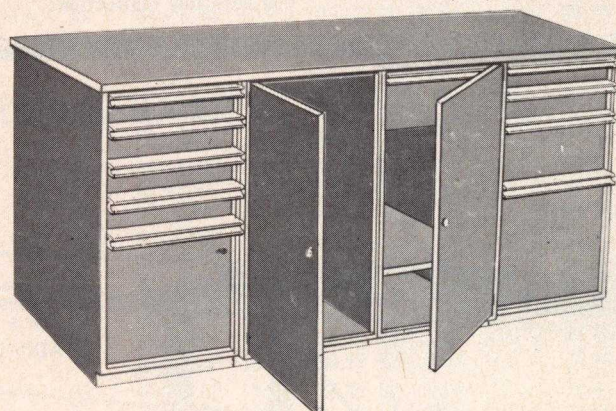

### WITH PRESSED WOOD TOP

60-9010 24x60 \$ 472.60 280 lb.

### WITH PLASTIC LAMINATED TOP

60-9011 30x60 \$ 486.70 272 lb.

## COMBINATION CREDENZA

Functional four unit assembly has more drawer space, including one half drawer behind security door. Entire unit incl. top, four bases and one 602-1104, one 602-1000 with door, one 602-1000 with half drawer, shelf and door, and one No. 602-1112. 30 inches high. Gray finish.

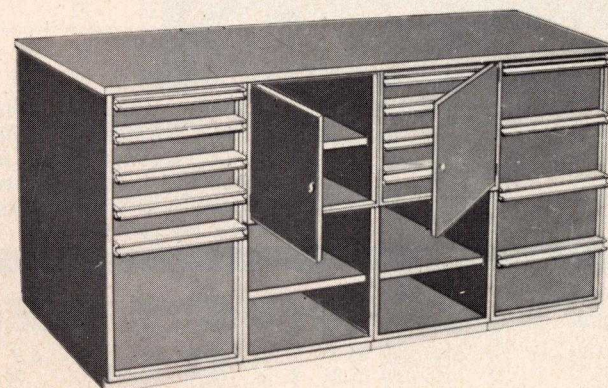

### WITH PRESSED WOOD TOP

60-9012 24x60 \$ 612.10 355 lb.

### WITH PLASTIC LAMINATED TOP

60-9013 30x60 \$ 627.00 347 lb.

## ORGANIZER CREDENZA

EXPANDA-FLEX interchangeable units permit dozens of combinations! And, at a later time, you can change them to fit your changes in need. Add doors, shelves, drawers. Do it yourself. This unit includes one 602-1104; two 602-100 with shelves, half doors and quarter drawers; one 602-1040; four bases and a top. 30 inches high. Gray finish.

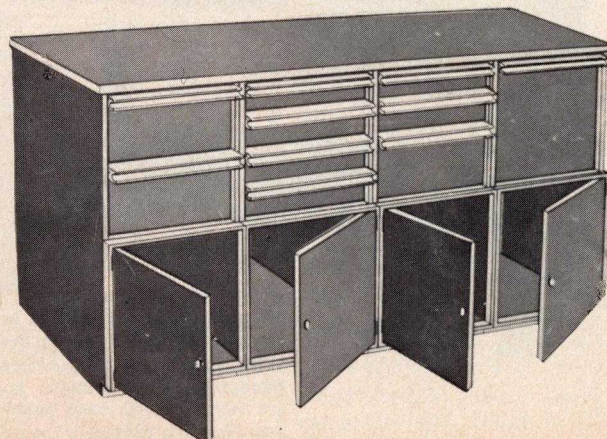

### WITH PRESSED WOOD TOP

60-9014 24x60 \$ 679.60 361 lb.

### WITH PLASTIC LAMINATED TOP

60-9015 30x60 \$ 694.50 353 lb.

## LOCKER CREDENZA

Reduce storage costs by as much as 50% Mix 'n match assemblies side by side! This versatile unit provides four storage lockers at the bottom! Includes top; four 602-1000 with full, quarter and half drawers; bases and four half doors. 30 inches high. Gray finish.

### WITH PRESSED WOOD TOP

60-9016 24x60 \$ 610.20 344 lb.

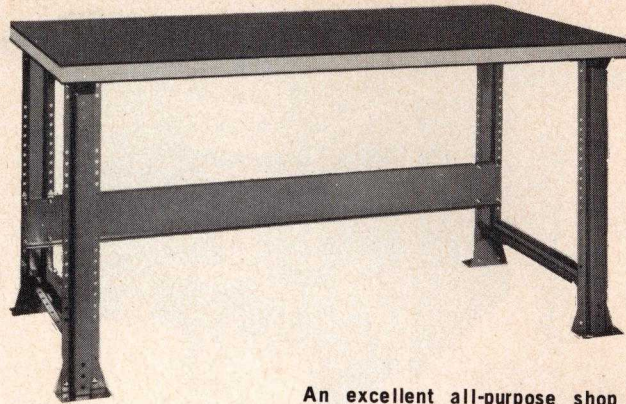

### WITH PLASTIC LAMINATED TOP

60-9017 30x60 \$ 625.10 336 lb.

# EXPANDA-FLEX® Work Benches are ideal for factory, shop or laboratory!

## BASIC BENCH with supporting STRINGER

An excellent all-purpose shop bench! Rigid supporting structure makes bolting to wall unnecessary! Each leg has provision for installation of electric outlet. Phosphatized gray baked enamel finish. Shipped complete with hardware and assembly instructions.

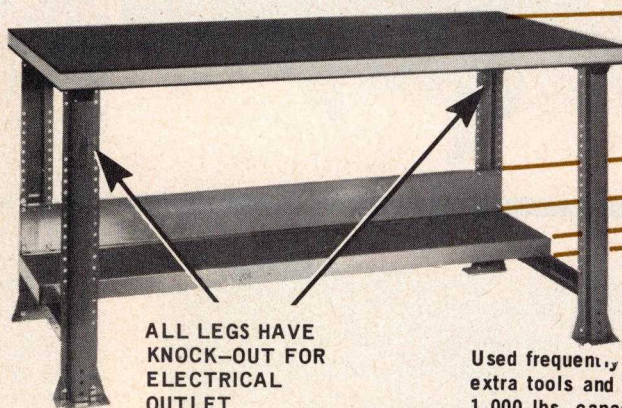

ALL OPEN BENCHING  
IS CONVERTABLE TO B-F-C  
EXPANDO® BENCHING!  
(See Page 85)

A B-F-C EXCLUSIVE!  
All bench working heights  
are the SAME regardless of  
top combinations ordered!

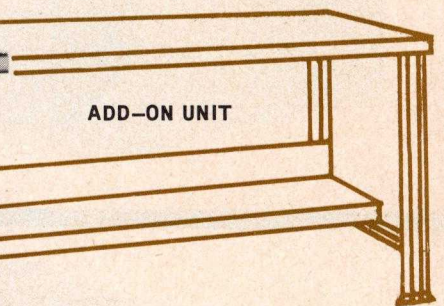

## BENCH with STRINGER and a LOWER SHELF

STARTING UNIT

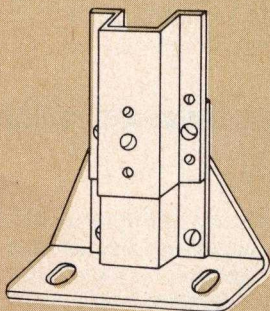

ALL LEGS HAVE  
KNOCK-OUT FOR  
ELECTRICAL  
OUTLET

ADD-ON UNIT

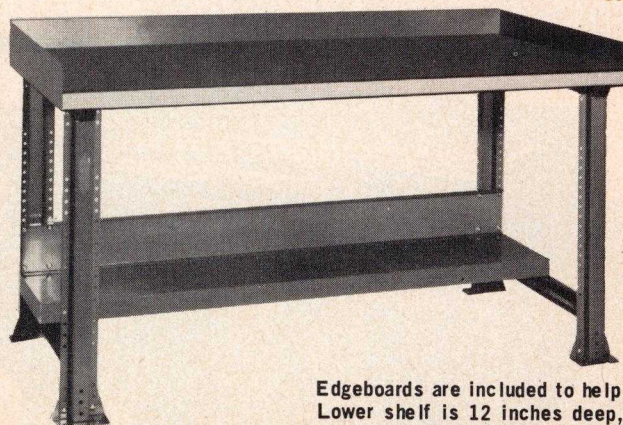

Used frequently where work will be done sitting down. Store extra tools and materials on the 12 inch deep bottom shelf. 1,000 lbs. capacity! Shelf is positioned to also serve as a foot rest. Leg is ready for electrical outlet. Phosphatized gray baked enamel finish. Shipped complete with hardware, assembly instructions.

HITE-RITE® ADAPTOR  
ADJUSTMENT CHANNEL

Converts 30 in. high benches to 31, 32 or 33 in. high. Converts 34 in. high benches to 35, 36 or 37 in. high. Order two pairs for each Starting Bench and one pair for each Add-ON Bench. Specify height. Patents pending. No. 676-0001 Wt. 1 lb. per pair \$ 1.80

## BENCH with STRINGER, LOWER SHELF and EDGEBOARDS

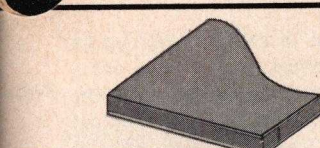

Edgeboards are included to help prevent loss of small parts. Lower shelf is 12 inches deep, has 1,000 lb. storage capacity. Leg is ready for wiring. Shelf also acts as foot rest. Phosphatized gray baked enamel finish. ADD-ON units are supplied with back boards only. Shipped with hardware and complete assembly instructions.

LOOK HOW EASY IT IS  
WHEN YOU MODERNIZE  
WITH B-F-C!

Add these B-F-C units  
to your present benches  
like this...

## CLOSED CABINET BENCHES

A new concept in cabinet benching by BFC! Add a bottom shelf, 2 ends, and a back enclosure to open-type benching and presto—EXPANDA-FLEX Cabinet Work Bench! Smartly styled, sturdily constructed. Extra heavy-duty steel. Add accessories like leg covers, drawers and shelves to suit your specific needs. Easily assembled. Gray finish.

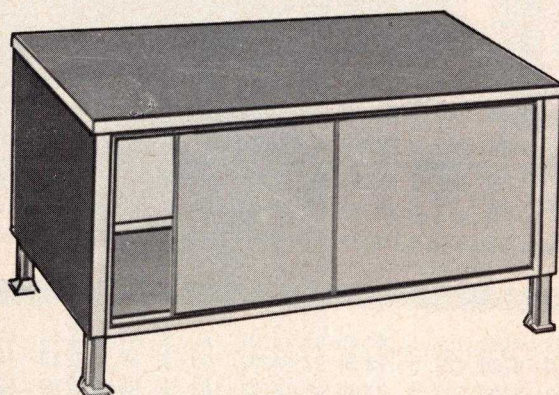

## ADD GREATER FLEXIBILITY WITH ADJUSTABLE SHELVING

Get more storage space! Add a shelf to the closed cabinet shown above. Shelf adjusts on 1 inch centers. Unique BFC EXPANDA-FLEX shelves are used on both 30 inch and 36 inch deep benches. Several shelves can be used in each bench. Exclusive BFC feature: Same shelves can be used with common legs between ADD-ON benches in a continuous run. Heavy gauge steel. For accessories, see page 87. Easily assembled. Gray finish.

...Get a new  
CABINET BENCH UNIT!

If you are just starting,  
select complete cabinet  
benches from this page!

## ADD-A-DOOR FOR PRIVACY, SECURITY

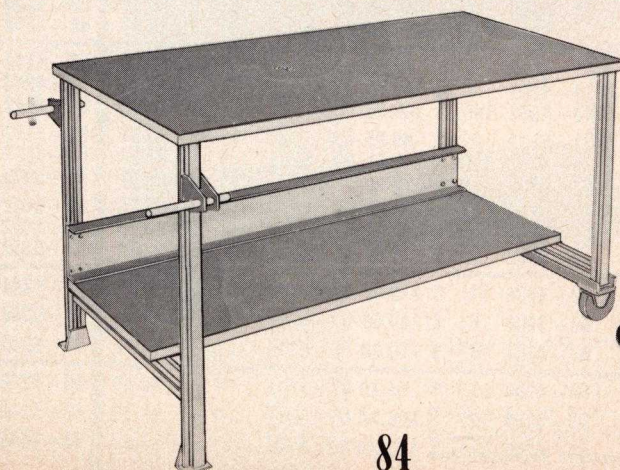

You can add sliding doors to any closed EXPANDA-FLEX Cabinet Bench! Doors give greater security; protect contents from dust, dirt, unauthorized removal. Doors slide with easy, silent movement. Two recessed handles with built-in key locks on each set of doors. Pre-assembled frame is easily mounted. Heavy gauge steel. Gray finish.

600-6030 for 5 ft bench 60 lb. \$ 52.90  
600-7230 for 6 ft bench 70 lb. \$ 55.00

ADD MOBILITY  
TO ANY  
EXPANDA-FLEX

For 36" deep benches	679-0036	4 lb.	3.55

## SHELVES

### BOTTOM SHELVES — 12" Deep

Store your supplies on these sturdy 1000 lb. capacity lower shelves. Attached to cross channels between bench legs. Acts as a foot rest, too. Heavy gauge steel.

For 4-ft. benches.....	No. 605-0412.....	16 lbs.....	\$ 9.85
For 5-ft. benches.....	No. 605-0512.....	19 lbs.....	10.95
For 6-ft. benches.....	No. 605-0612.....	22 lbs.....	12.45

### LOWER SHELVES — 24" Deep EXCLUSIVE FEATURE!

For use where extra space is needed. Unique lower shelves are used with either 30" deep or 36" deep benches. Attached to inner flanges of bench legs. Adjusted up or down on 1" centers. Several shelves can be used with each bench or with common legs between benches in a continuous run. Heavy gauge steel.

For 4-ft. benches.....	No. 605-0424.....	25 lbs.....	\$17.70
For 5-ft. benches.....	No. 605-0524.....	31 lbs.....	19.60
For 6-ft. benches.....	No. 605-0624.....	37 lbs.....	22.25

24" deep lower shelves can be used with each model No. 61 series bench. All shelves adjust up or down on 1" centers.

## EDGEBOARDS

Used when small and easily lost parts are being handled. Extends 3" above bench top surface, with a safety radius on each exposed corner. Backboard has bottom flange for easy installation and alignment. Use backboard clip for joining backboards in continuous run. Specify whether hardware is for attaching to steel tops or to wood tops.

## BACKBOARDS

## EASY ROLLING STEEL SHELF TRUCKS

Extra strength locker tops . . . Top shelf has fully overlapping corners for added strength and cleaner overall lines.

Exclusive B-F-C Feature! Top and bottom channels are both mechanically fastened and three-projection-welded to channel type upright, as shown.

Here are B-F-C's most popular styles and sizes. Used extensively in schools, plants, offices, institutions and clubs. Standard locker color is gray. Locker fronts are available in optional colors of beige and mist green. All locker parts are phosphate coated before the baked enamel finish is applied. Gives protection against corrosion and bonds paint to metal for a durable permanent finish. Two rubber silencers are riveted on to each locking device to eliminate unnecessary noise and wear. Part of the B-F-C sure-catch closing system. For additional sizes, styles and quantities, see B-F-C.

# PHOSPHATIZED CHANNEL-TYPE STEEL LOCKERS

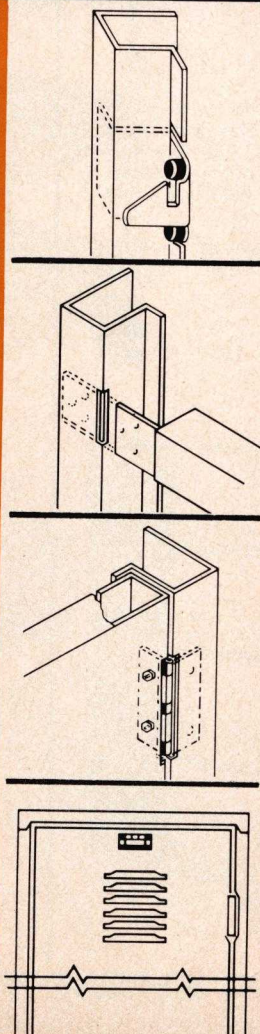

Two rubber silencers are riveted on to each locking device to eliminate unnecessary noise and wear. Part of the B-F-C sure-catch door-closing system.

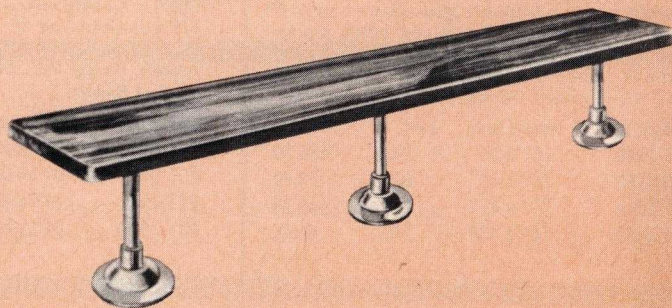

Exclusive B-F-C Feature! Multi-Door units have cross channel between every door. Intermediate channels are electrically three-projection-welded to channel uprights.

Hinges are five knuckle tight-pin type, 2" high. They are electrically projection-welded to upright and bolted to door.

B-F-C Lockers feature six louvers at the top and six at the bottom of each door, for ample ventilation.

## LOCKER BENCHES

Exceptionally sturdy Locker Room Benches of solid hardwood in natural varnish finish. Mounted on 16 inch high steel pedestals, finished in standard gray or to match lockers. Bench tops are 9½ inches wide by 1¾ inches thick by length in even foot multiples, up to 12 feet. Benches up to 8 feet in length get 2 pedestals. Benches over 8 feet get 3 pedestals. Overall height is 17½ inches.

Model No.	Length	Wt.	Price
190-0603	3' 0"	26 lbs.	\$ 25.50
190-0604	4' 0"	30	31.40

190-0610	10' 0"	60	69.90

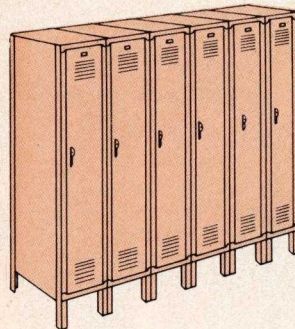

# Full Strike Channel Type Construction SINGLE TIER LOCKERS

*Finest Quality Lockers For Plants, Schools, Institutions*

## B-F-C SERIES 1-1000

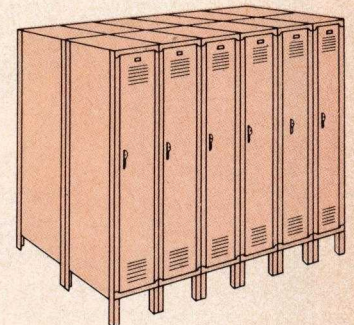

B-F-C Single Tier Lockers...the most popular general purpose lockers. Used extensively in schools, plants, institutions, clubs and offices. With full height for hanging street clothes and uniforms without wrinkling. Plus, storage space for books, musical instruments, athletic equipment, etc. Standard equipment includes a number plate, a sturdy hat shelf and three plated wall hooks. Lockers 18 inches deep and over have a coat rod. Each door has 12 louvers for ample ventilation. Standard locker color is gray.

**PRE-PAINT PHOSPHATIZED**—All locker parts are phosphate-coated before the baked enamel finish is applied. Phosphating gives protection against rust, stops corrosion spread and bonds paints to metal for a durable, permanent finish. Other colors are available at extra cost.

**LOCKER GROUPINGS**

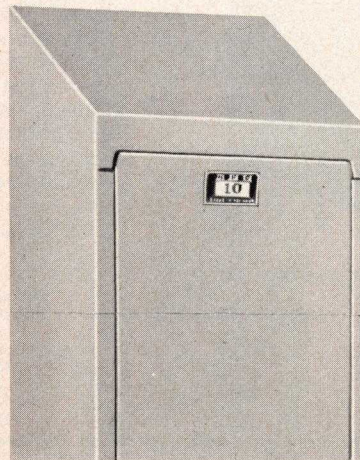

Six Lockers. One group, six wide, single row single tier.

Twelve Lockers. One group, six wide, double row, single tier.

# BOX LOCKERS

## SERIES 1-6000

B-F-C Multi-Tier "Box" Lockers have a wide variety of uses for the convenient storage of personal belongings. A favorite in gyms, laboratories, classrooms, hospitals, bowling alleys, machine shops and factories. Box Lockers are the finest storage method for individual possessions and tools. Padlock attachment is standard equipment. Built-in master key locks or combination locks are optional. May be used in combination with larger lockers. Ventilated with six louvers per door.

### EXCLUSIVE B-F-C FEATURE!

There is a welded-in cross channel brace between each door! All structural features of Series 1-1000. Standard color gray.

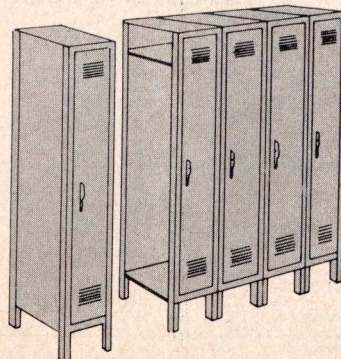

MULTIPLE TIER LOCKERS

				6	Add-on	1-6061	86	51.50
				18	Three Wide	100-6063	262	156.00

\* Model Number is for an entire locker with six door openings.

### HOW TO ORDER B-F-C LOCKERS

STARTER

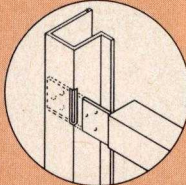

ADD-ON UNITS.

B-F-C Lockers are sold as Starter and Add-On units. The first number represents a single or Starting unit. Add-On unit number (with suffix "A") are for additional units in the same row. For example, when ordering 5 lockers in a row—order one Starting unit and 4 Add-On (A) units.

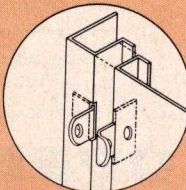

For ease in handling, we recommend that no more than 9 Add-On (A) lockers be used with a Starter locker. Therefore to assemble a row of 20 lockers, use 2 groups of 10 each; 2 Starter units and 18 Add-On units!

When ordering DOUBLE and MULTIPLE TIER LOCKERS remember that each stock number represents an ENTIRE LOCKER, not just an opening.

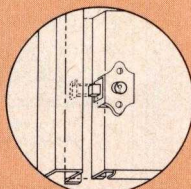

### EXCLUSIVE B-F-C FEATURE

CROSS CHANNELS are three-projection welded to uprights, between each door.

PADLOCK CLIP & PULL Standard equipment on box lockers. Spot welded to upright & door.

FLAT-KEY LOCKS Bolted to door as optional equipment on all lockers.

(Illustrated)

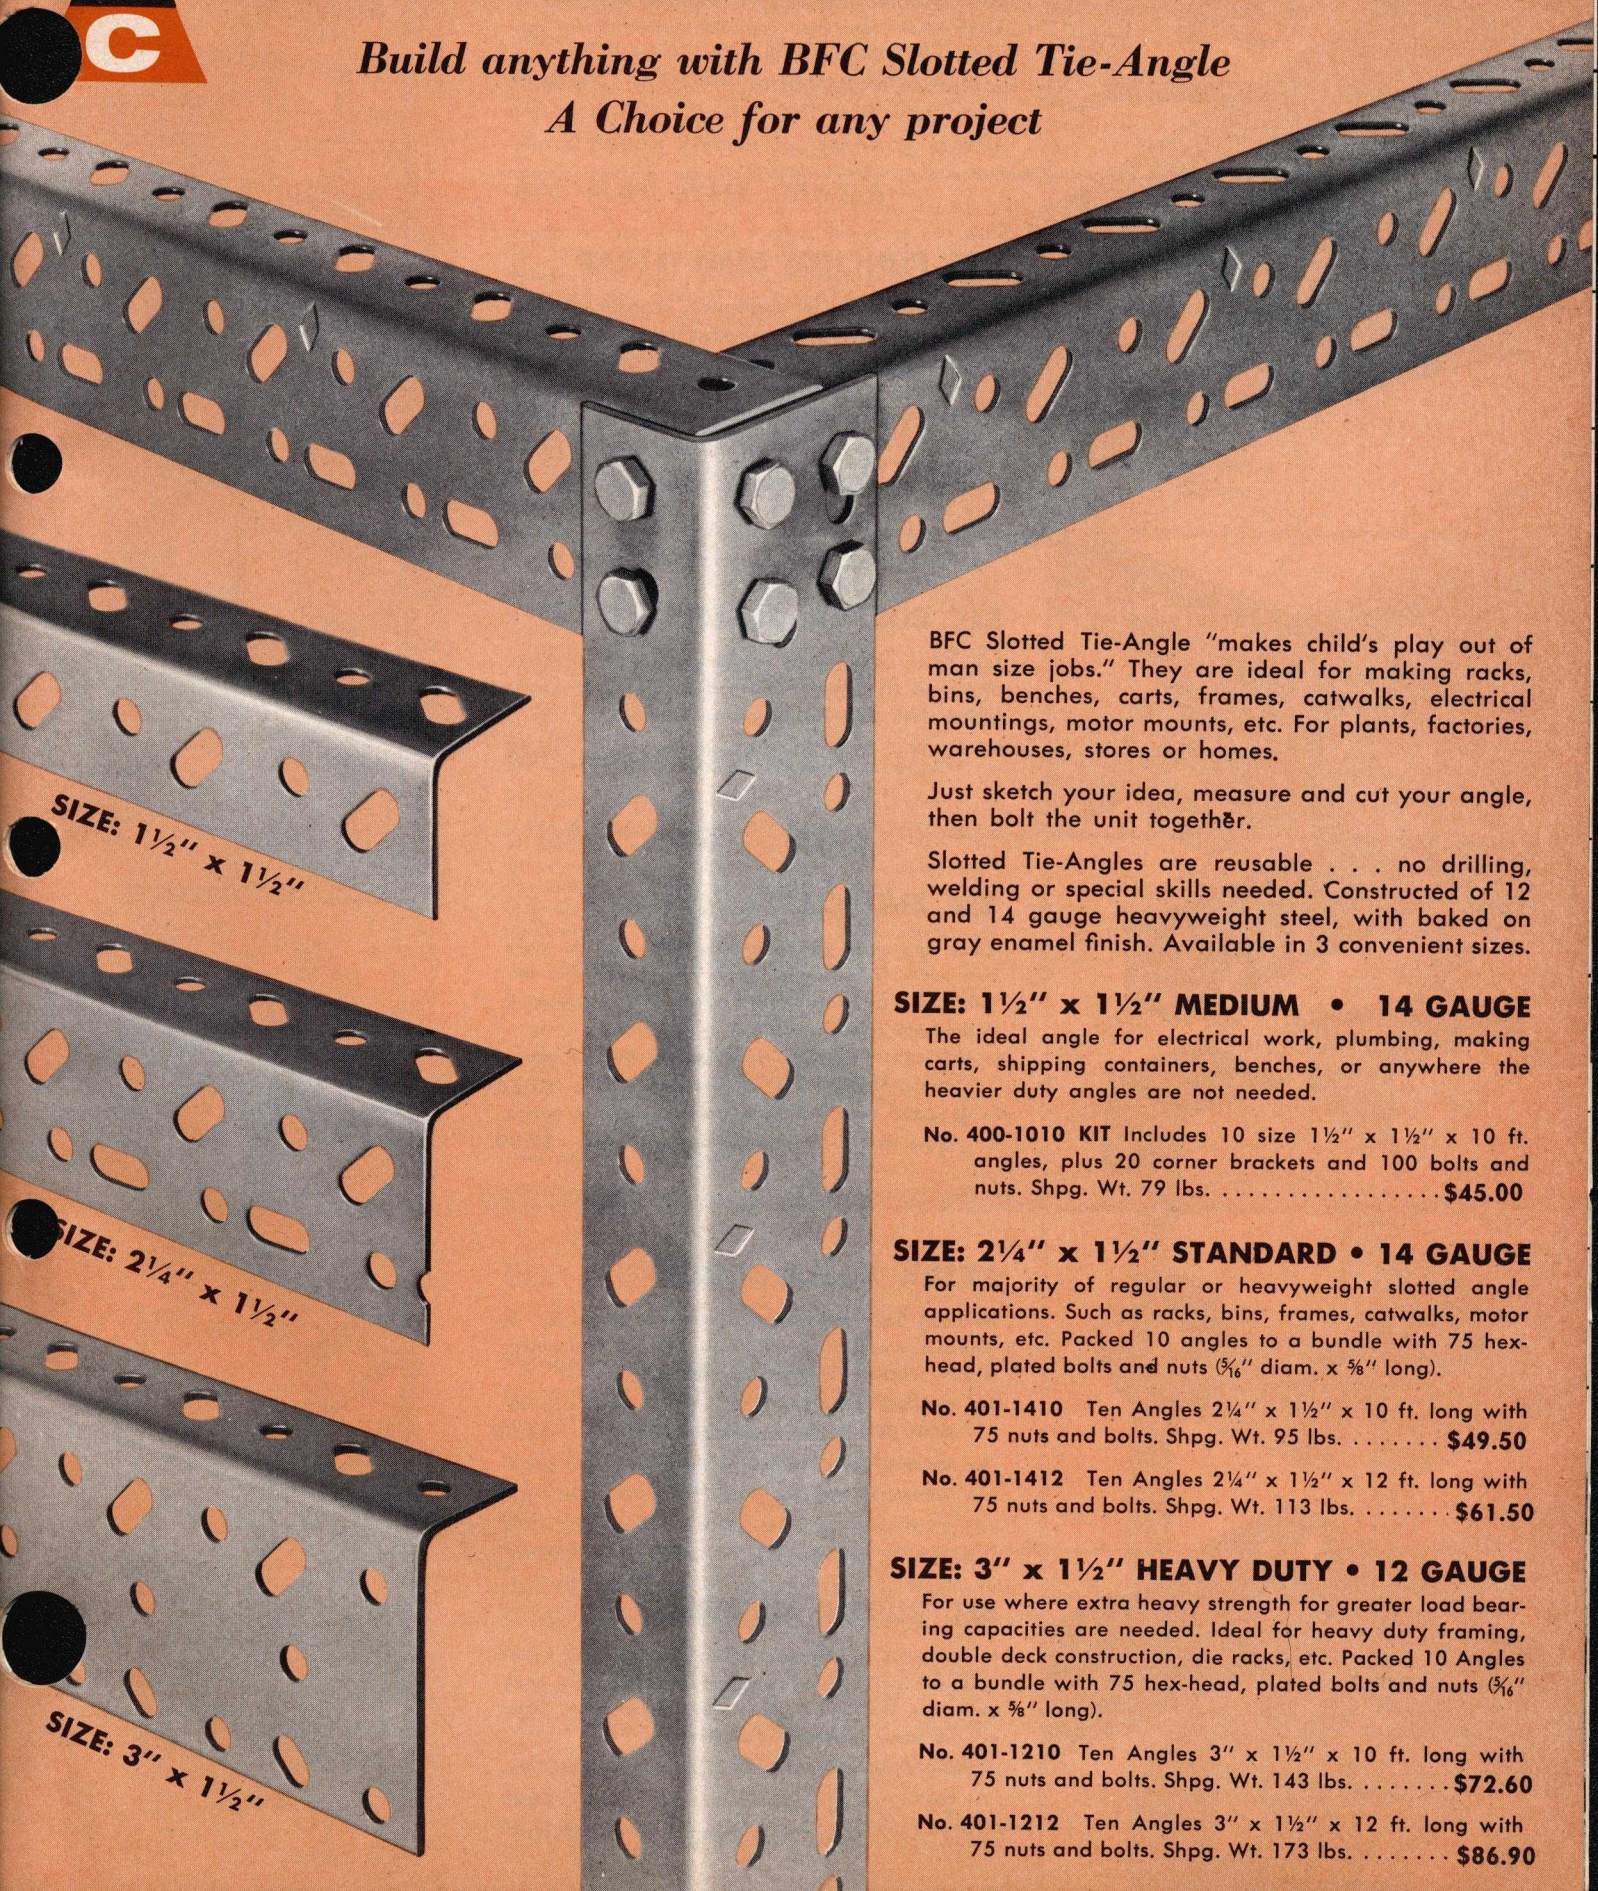

Low Cost "Do-It-Yourself" Structural Framing

# SLOTTED TIE-ANGLES®

*Build anything with BFC Slotted Tie-Angle*

*A Choice for any project*

BFC Slotted Tie-Angle "makes child's play out of man size jobs." They are ideal for making racks, bins, benches, carts, frames, catwalks, electrical mountings, motor mounts, etc. For plants, factories, warehouses, stores or homes.

Just sketch your idea, measure and cut your angle, then bolt the unit together.

Slotted Tie-Angles are reusable . . . no drilling, welding or special skills needed. Constructed of 12 and 14 gauge heavyweight steel, with baked on gray enamel finish. Available in 3 convenient sizes.

## SIZE: 1½" x 1½" MEDIUM • 14 GAUGE

The ideal angle for electrical work, plumbing, making carts, shipping containers, benches, or anywhere the heavier duty angles are not needed.

No. 400-1010 KIT Includes 10 size 1½" x 1½" x 10 ft. angles, plus 20 corner brackets and 100 bolts and nuts. Shpg. Wt. 79 lbs. . . . . \$45.00

## SIZE: 2¼" x 1½" STANDARD • 14 GAUGE

For majority of regular or heavyweight slotted angle applications. Such as racks, bins, frames, catwalks, motor mounts, etc. Packed 10 angles to a bundle with 75 hex-head, plated bolts and nuts (⅝" diam. x ⅝" long).

No. 401-1410 Ten Angles 2¼" x 1½" x 10 ft. long with 75 nuts and bolts. Shpg. Wt. 95 lbs. . . . . \$49.50

No. 401-1412 Ten Angles 2¼" x 1½" x 12 ft. long with 75 nuts and bolts. Shpg. Wt. 113 lbs. . . . . \$61.50

## SIZE: 3" x 1½" HEAVY DUTY • 12 GAUGE

For use where extra heavy strength for greater load bearing capacities are needed. Ideal for heavy duty framing, double deck construction, die racks, etc. Packed 10 Angles to a bundle with 75 hex-head, plated bolts and nuts (⅝" diam. x ⅝" long).

No. 401-1210 Ten Angles 3" x 1½" x 10 ft. long with 75 nuts and bolts. Shpg. Wt. 143 lbs. . . . . \$72.60

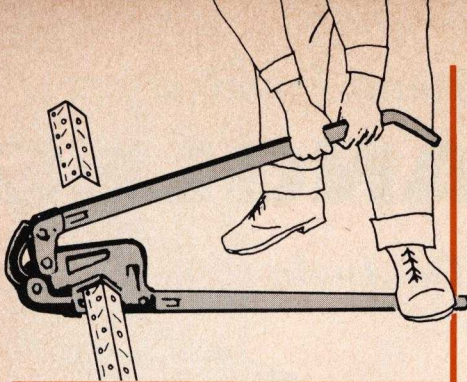

No. 401-1212 Ten Angles 3" x 1½" x 12 ft. long with 75 nuts and bolts. Shpg. Wt. 173 lbs. . . . . \$86.90

SIZE: 1½" x 1½"

SIZE: 2¼" x 1½"

SIZE: 3" x 1½"

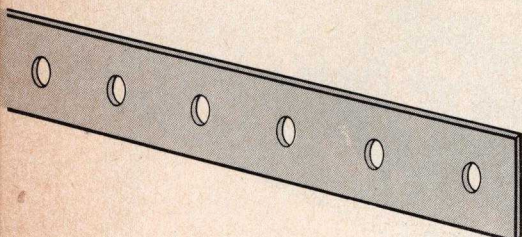

### BFC ANGLE CUTTER

BFC Slotted Angle can be cut with hacksaw, powersaw or abrasive power tools—however, the fastest, easiest and most accurate method is with the BFC Cutter. A single stroke, one man operation cutter. Cut at convenient 4" guide marks. Shpg. Wt. 36 lbs.

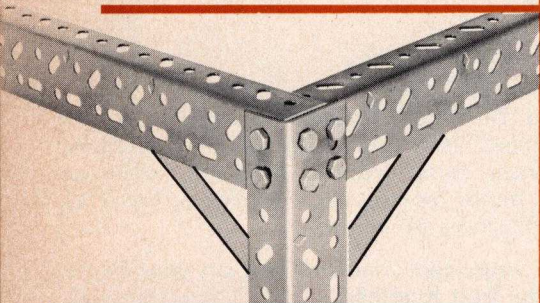

No. 498-0010 ANGLE CUTTER ..... \$ 69.95

### BFC PUNCHED STEEL STRAP

A useful accessory for suspension, hanging, dividing, bracing and curved applications. Excellent for tensioning slotted angle units diagonally when extra rigidity is required. Punched on 1" centers. Ten 6 ft. lengths per package. Shpg. Wt. 20 lbs.

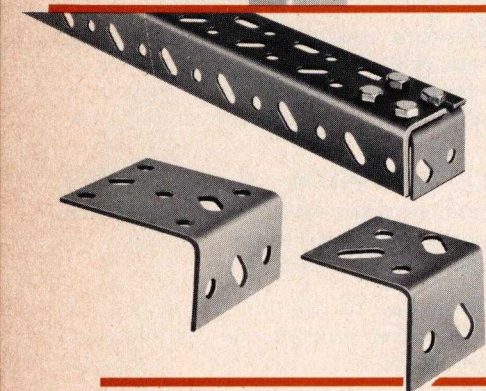

No. 479-0010 STRAP 10 per pkg. .... \$18.55

### BFC CORNER GUSSETS

For adding extra rigidity and strength at corner points of Slotted Tie-Angle-structures. Size: 1½" x 9" heavy gauge steel. Gray baked enamel finish.

No. 417-1412 Shpg. Wt. 7 lbs. per Doz. .... \$6.90

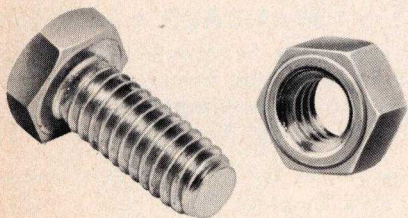

### BFC END CLEATS

Cleats are small pieces of Tie-Angle used to make butt joints, transverse stiffeners and to reinforce certain types of joints. Pre-cut cleats are available if desired. 12 to a bundle.

No. 481-1402 Pre-cut 2¼" long for use with 14 gauge angle. Shpg. Wt. 3 lbs. per Doz..... \$1.60

No. 481-1203 Pre-cut 3" long for use with 12 gauge. Shpg. Wt. 4 lbs. per Doz..... \$2.90

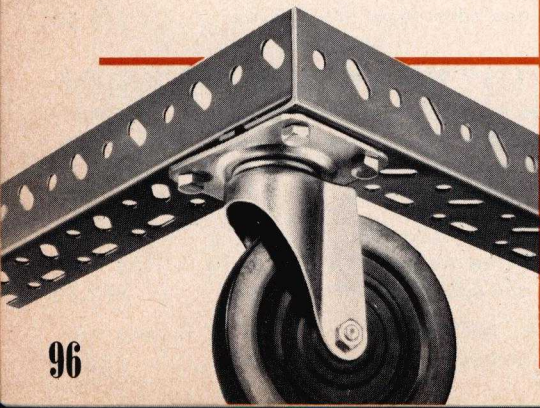

### EXTRA BOLTS & NUTS

Hexhead bolts and nuts are cadmium plated ⅝" in diameter. Free spin fit. Assemble with hand or power wrench. Packed 75 bolts and nuts in a box.

No. 494-0058 STANDARD ⅝" long for most applications. Box of 75. Shpg. Wt. 4 lbs..... \$4.00

No. 494-0034 EXTRA LONG ¾" long for thicker applications. Box of 75. Shpg. Wt. 5 lbs..... \$4.20

### BFC RUBBER CASTERS

Hard rubber 5" diameter heavy duty casters. Available with ball bearing swivel or stationary type. Bolts under BFC Tie-Angle units to provide portability. Casters roll easily, quietly and efficiently.

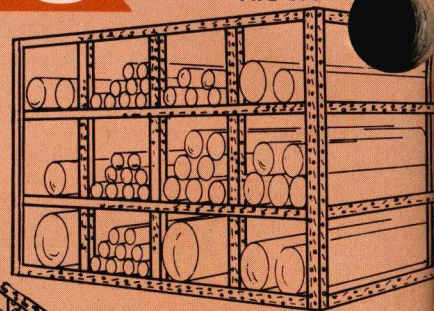

No. 798-0055 STATIONARY CASTER Shpg. Wt. 3 lbs. each ..... \$5.40

No. 798-0054 SWIVEL CASTER Shpg. Wt. 4 lbs. each \$6.30

Figures tested for evenly distributed loads with adequate safety factor.

### BFC SHELVING FOR USE WITH "TIE-ANGLE"

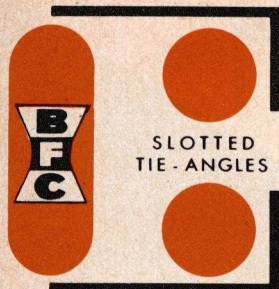

Various size steel shelves are available for use with BFC Angles. Shelves may be bolted directly to BFC Angle uprights or may be placed on horizontal beams for a solid surface between the beams. By bolting various sizes and dimensions together, an infinite variety of platforms can be constructed. Gray baked enamel finish. Shelves are packed 8 to a box, with bolts and nuts included.

Number	Size	Wt. Each	Price Each
201-3612	12 x 36"	9 lbs.	\$3.40
201-3618	18 x 36"	12 lbs.	4.75
201-3624	24 x 36"	15 lbs.	6.10
201-3636	36 x 36"	22 lbs.	8.90

# SLOTTED TIE-ANGLES® TABLES OF STRENGTH

**TABLE A  
COLUMN UPRIGHTS**

Table A illustrates load carrying capacities of BFC SLOTTED TIE-ANGLE when used as a column or upright. Capacities are in pounds for steady loads, without allowance for shock load or lateral thrust which need additional bracing. The following examples are listed in Table A:

1. Single Upright
2. "T" and Channel Upright
3. Channel and "T" Upright
4. Channel "T's".
5. Standard "I" Beam Upright
6. Wide "I" Beam Upright

**TABLE B  
HORIZONTAL SPANS**

Table B illustrates load carrying capacities of BFC SLOTTED TIE-ANGLE when used as horizontal beam or span. Capacities are in pounds for static load evenly distributed over two beams. For concentrated load, halve the load capacities figures. On shock load or lateral thrust, add braces as needed. The following examples are listed in Table B:

1. Long Legs Up
2. Short Legs Down
3. Long Legs Down
4. Long Legs Down with stiffeners
5. Wide Channels
6. "T" Channel Beams
7. "I" Channel Beams

Below are illustrated load carrying capacities of BFC SLOTTED TIE-ANGLE when used as a column upright or as horizontal beam spans.

A conservative safety factor of 1.5 has been figured on load capacities derived for estimated guidance purposes only. Do not ex-

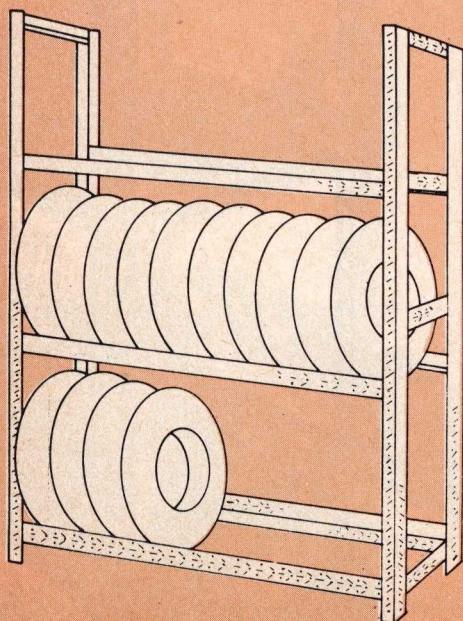

ceed. On shock load or lateral thrust (Horizontal Spans), add braces as needed. Figures in **BLACK** are for capacity loads on 12 GAUGE x 3" x 1½" TIE-ANGLES (No. 1200 series). Figures in **COLOR** are for capacity loads on 14 GAUGE x 2¼" x 1½" TIE-ANGLES (No. 1400 series).

# STORAGE & PALLET RACKS

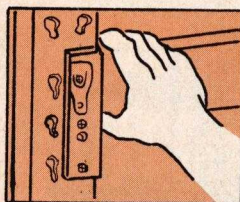

## CONVERTO-FLEX<sup>®</sup> 800 SERIES PALLET RACKS

A FRESH, NEW APPROACH TO PRESENT-DAY  
PALLET RACK NEEDS...BFC HAS THE ANSWER!

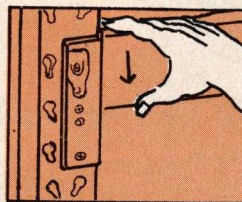

Functional, interchangeable standard component  
parts permit dozens of depth, height or width vari-  
ations in your own warehouse through optional  
bolted or K. D. upright frames.

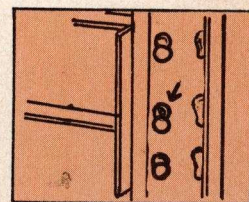

**PRE-SET POSITION**  
Place lock into pre-  
set entry position...

**ENGAGE BEAM**  
Lock springs into  
hole position...

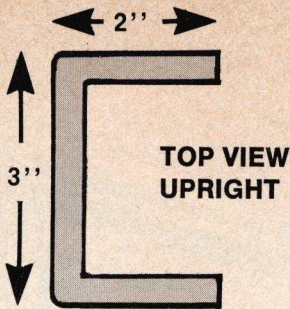

**PRESS IN BEAM**  
Push beam downward...  
Lock snaps into slot!

**REAR VIEW**  
Safety lock holds beam  
in locked slot.

AVAILABLE IN THREE HEIGHTS... SIX WIDTHS... THREE DEPTHS... TO HANDLE EVERY  
STANDARD, APPROVED PALLET SIZE CURRENTLY IN USE IN THE UNITED STATES!

# SERIES 800 CONVERTO

FOR STANDARD LOAD CAPACITIES

FOR EASY ORDERING . . .

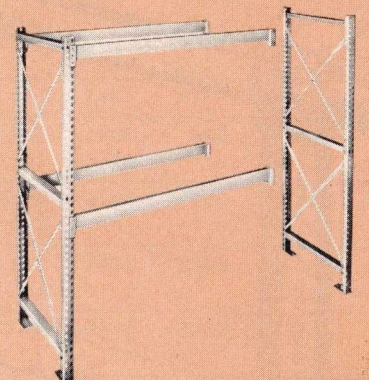

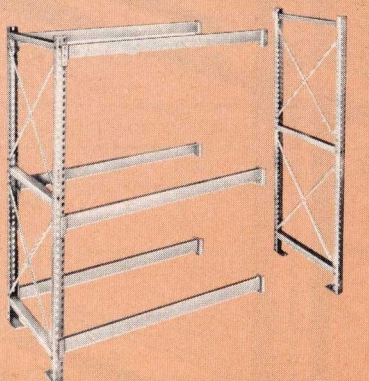

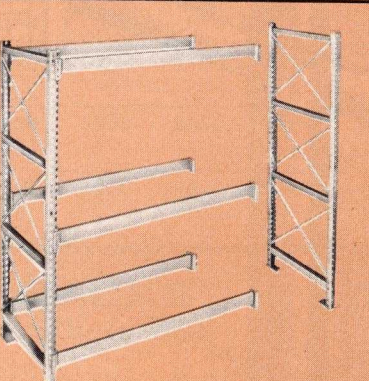

**FEATURES EXPAND-A-SIZE FRAME DESIGN FOR INSTANT CHANGEOVER TO ANOTHER DEPTH OR HEIGHT INEXPENSIVELY AND QUICKLY IN THE FIELD. ORDER A FINISHING END FRAME TO FINISH EACH ROW OF PALLET RACK UNITS.**

Pallet Rack Frame Assembled from standard stock components. New, exclusive BFC adjustable height—adjustable depth design. Order frames completely assembled or order them knocked down (easily bolted together) for lower freight costs. Extra-heavy 13 gauge steel channel construction. The bolted frame lets you shorten or lengthen or make units deeper. It also is easy to replace parts damaged by fork lift impacts. Gray baked enamel finish.

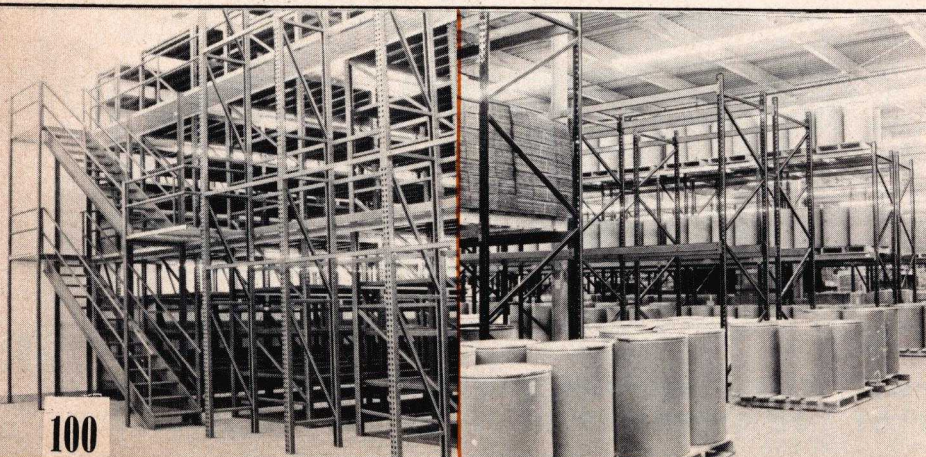

Shelf Beam features all welded design. Sturdy, rigid construction. Connector plates have positive self-locking safety device. Fully adjustable on 2" centers up or down. Three rivets on each plate. Heavy gauge steel. Gray baked enamel finish.

- \* Welded beams (connectors attached) and optional Pre-Assembled Frames
- \* Sturdy, rigid rack, with extra-heavy 13 GAUGE steel upright frames
- \* Fully adjustable on 2-inch centers, with positive safety lock device
- \* Adaptable—easily added to or changed at location site
- \* Available from stock components in a wide range of sizes

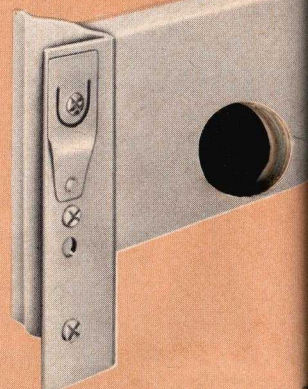

**EASY TO ORDER . . . Just determine the size of rack you need per row . . . then multiply by number of racks needed . . . then add Finishing End Rack Frame to finish each row of racks. For additional beams or optional accessories, see page 102**

## GENERAL SALES INSTRUCTIONS

**ORDER BY CATALOG NUMBER ONLY:** The number of each item is self-explanatory, no description is required. Indicate quantity desired. If possible, attach floor plan and rough sketch showing arrangement of units, including width, depth and height, with number of shelves per unit.

**SEND ORDERS AND CORRESPONDENCE** to our Home Office for prompt disposition.

**PRICES:** All prices f.o.b. our factory, Philadelphia, Pa. Prices are subject to change without notice. We reserve the right to bill at prices in effect at time of shipment.

**SPECIFICATIONS:** The material, design and finish are subject to change without notice. All necessary hardware is included for assembling units and component parts, unless otherwise noted.

**WEIGHTS:** Weights listed are approximate for averaged packaging per averaged order.

**ACCEPTANCE:** All orders are subject to final acceptance, in writing from the home office, Philadelphia, Penna. Open accounts subject to Credit Department approval.

**PACKAGING:** Each package is marked showing size, quantity, product number and color. Merchandise is packaged according to standard packaging and carrier requirements. Export packaging rates available upon request.

**ROUTING:** Unless the routing is specified on each order, shipments will be made the best and cheapest way. All orders shipped freight collect unless otherwise specified.

**CLAIMS:** Claims for damaged or lost material must be filed with the carrier. Check all shipments immediately for damages in transit and report any damage to the carrier. B-F-C will not accept return of merchandise damaged in transit. Your recourse is with the delivering carrier. Shortages must be reported to the Home Office within 10 days from receipt of shipment.

**RETURNED MERCHANDISE:** Unless authorized in writing by B-F-C, merchandise cannot be returned. Return shipments must be prepaid and subject to a handling charge of 20%.

**CHANGES AND CANCELLATIONS:** Items are not subject to changes or cancellations after order has been acknowledged and scheduled.

**INSTALLATION COSTS:** May be obtained from the Home Office. All items are shipped K. D. (Knocked Down) unless otherwise specified.

**TERMS OF PAYMENT:** Terms are 1%—10 days, net 30 for material only.

**GUARANTEE:** Our products are guaranteed from mechanical defects for one year.

# **B F C** UNIFLEX® *can be Double-Decked* Expand Vertically with B-F-C Add-A-Tier Shelving

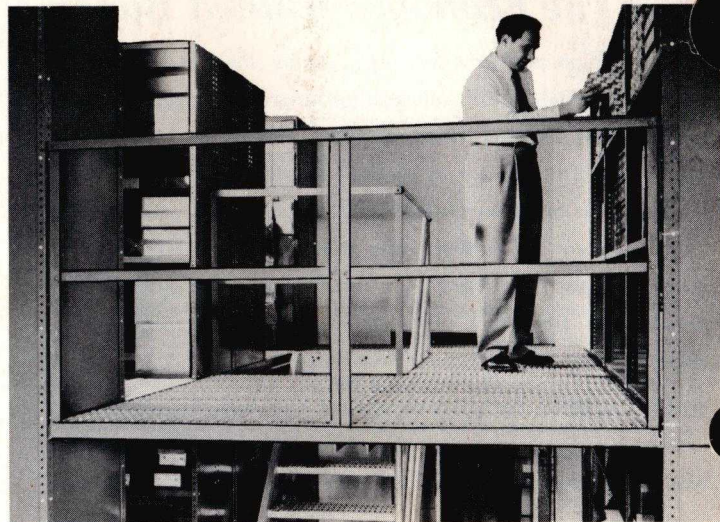

## MEZZANINE SHELVING USES OVERHEAD AIR SPACE

UNIFLEX double-deck shelving affords low cost, extra storage space in the same floor space for warehousing, manufacturing, stock room or in-production areas.

Patented UNIFLEX units can be spliced one atop the other. Vertical splice connectors attach mid-sections of the shelves to support catwalk flooring. Access to the elevated storage level is by specially designed stairways.

UNIFLEX double deck shelving supplies added storage space without increasing floor space. The second deck is erected easily, with basic shelving parts. New installations or present shelving can be converted to two story shelving layouts easily, economically at customer's location site.

All double deck shelving is adjustable for any size shelf opening by raising or lowering patented UNIFLEX shelf clips. No tools needed. Top deck is used mainly for bulk storage of parts. Lower deck usually holds fast moving items for immediate use. See page 27 for more details.
